

CITY TO ISSUE BONDS FOR NEW WATER WORKS

Issuance of \$35,000 To Complete Plant Is Authorized.

STATE TAXES ISSUE

Action Made Necessary By Order of State Board Of Health.

The issue of \$35,000 worth of bonds to raise money partly to complete the new plant of the water works, and partly to meet certain immediate obligations in connection with the plant was voted by the city commission at the meeting held Thursday evening.

The issue of bonds was made necessary by the order of the State Board of Health demanding that the new water supply be put in operation as quickly as possible, and also because of the fact that the old water stations have not been sold as salvage, it is pointed out.

Of the \$35,000 worth of bonds, \$18,000 will be used to complete the new water station. When the city purchased the plants of the Xenia Water Company bonds in excess of the purchase price were issued, the extra amount, when added to the estimated salvage of the old plants, being set aside for the installation of a new supply and water station. The old plants have not been sold, which does not allow any income from this source, making it necessary to require other moneys to complete the plant in accordance with the demands of the State Health Board.

Passes Rules.

Shortly after the city acquired the water plants, the commission passed a system of rules and regulations, requiring that consumers pay the cost of service lines and of meters. As many of the customers are unable to pay these costs now, the expense is carried by the city, and the expense paid by the consumers on the installment plan. The money to carry this debt was appropriated from moneys which otherwise would have gone to the interest and sinking fund, it is explained, and the issuance of \$35,000 worth of bonds at this time is actually to create a working capital in order to make easy payments possible for the water consumers and to make payments to the interest and sinking fund bond.

The bonds are issued for 30 years which creates a working capital for the water department for that length of time. In the meantime any profits the plant may make, may be applied to pay off the obligations to the interest and sinking fund. It is estimated by officials that the city will be able to pay back between \$10,000 and \$15,000 of this amount soon.

The State Industrial Commission has agreed to take the entire bond issue, which permits the city to secure the money at once, without the delay of advertising for bids.

The contract for wiring the new water plant for electricity was awarded to the Hornick Electrical Company at the meeting the bid being \$950. The only other bid was that of the W. B. Hill Electrical Company the bid being \$1,355.

JUDGE E. H. GARY DENIES STEEL CUTS

New York, Feb. 25.—Judge Elbert H. Gary, chairman of the board of directors of the U. S. Steel corporation, denied today that his corporation had called a meeting of salesmen or other representatives to discuss the advisability of slashing steel prices in order to bolster up business.

It was stated at the steel company's office here that the U. S. Steel corporation, which had not raised prices as high as independents during the war, had less difficulty in retaining its business than independents.

WILL HOLD REVIVAL MEETINGS IN XENIA

Dr. Riley, Manor Bybee and Staff Captain Cordell of the American Rescue Workers of Dayton, will be in this city for the rest of the week assisting the local branch of the American Rescue Workers in conducting a revival service the rest of the week at the local mission. This is the announcement today of Adjutant A. Main of the local organization.

WINNERS' FRIENDS DONATE

Frankfort, Ky., Feb. 25.—Friends of Dr. H. C. Winnes, of Cincinnati, former assistant State Veterinarian, who believe that he is innocent of the murder of Miss Lura Parsons, have collected \$713 from friends in Harlan. This fund will be turned over to him to be used in his second trial next April.

FAMOUS ALTAR BURNS

Rome, February 24.—Fire in the world famous Church at Loreto, the Chiesa Della Casa Santa, destroyed the altar and the statue of the Virgin, says a dispatch from Loreto. The fire was caused by a short circuit.

IRISH COMMANDER WAS \$8.00 A WEEK CLERK IN LONDON

Dublin, Feb. 25.—Michael Collins, "Commander-in-Chief" of the Irish Republican army, who is being sought by a great British army in Ireland and a vast force of secret service agents, was an \$8 a week bank clerk in London before the war. Collins came to Ireland to join the British army when the Sinn Fein rebellion occurred at Dublin in 1916. He joined forces with the Irish republicans, however, being an Irishman by birth and a republican by sentiment and rapidly rose in the councils of the Sinn Fein until he stands at the head of the military organization and really controls DeValera in power and influence. British officials declare that, if they could capture Collins they believe the militant campaign of the Sinn Feiners would soon collapse.

SERIOUS TURN IN IRISH FUSS NOW APPARENT

One of Biggest Battles In Warfare Breaks Out Friday.

CROWN IS BEATEN

Two Are Killed and at Least Six Wounded In Fighting.

Dublin, Feb. 25.—One of the biggest battles in the warfare which has been waging in Ireland was fought today near Ballyjourney when the crown forces were defeated by a heavy section of the Irish Republican army.

It is known that two members of the crown forces were killed and upwards of six wounded but the total casualties have not been checked up.

One of the dead was Major Grant commanding the Black and Tan police.

There were more than 300 Sinn Feiners in the band which attacked the military police.

Eight police lorries filled with black and tans were passing through the Coolies district west of Macroom, when they ran into a road that had been mined.

An attack was opened upon the lorries with the Sinn Feiners firing from behind barricades.

J. MASON PRUGH WILL REPRESENT DISTRICT BUREAU

Farm Bureau Federation Holds Convention On Thursday.

J. Mason Prugh, President of the Montgomery County Farm Bureau, was elected to represent this district on the board of directors of the Ohio Farm Bureau Federation, at the district Farm Bureau convention held here Thursday.

The convention was held in the civil service commission chamber of the Federal building, and there were 30 delegates representing nine counties present. Farm Bureau men from Montgomery, Champagne, Fayette, Clinton, Greene, Ross, Highland, Pickaway and Madison counties were present at the convention.

The delegates discussed the organization of livestock companies, such as has been incorporated in this county, and questions bordering on its operation, including transportation and rates.

AUTO BANDITS MAKE BIG HAUL

Chicago, Feb. 25.—After fighting a pistol battle with L. E. Plomgren, cashier, four auto bandits today escaped with \$9,000 payroll money of the Western Newspaper Union. Plomgren was killed by a blow from the butt of a pistol but drew his gun and fired at the bandits until they vanished in their automobile. The robbers returned the fire but Plomgren was not wounded. Plomgren and an assistant had just drawn the money from a bank to be used in paying off the company's employees today.

EPIDEMIC BREAKS OUT

Vera Cruz, Feb. 25.—An epidemic of black smallpox has broken out on the isthmus of Tehuantepec and more than 100 deaths have occurred, according to a private telegram received here today.

Here is the new Cabinet as tentatively selected by President Warren G. Harding, Secretary of State, Charles Evans Hughes, of New York; Secretary of Treasury, Andrew W. Mellon, of Pennsylvania; Secretary of War, John W. Weeks, of Massachusetts; Postmaster General, Will H. Hays, of Indiana; Attorney General Harry M. Daugherty, of Ohio; Secretary of Navy, Edwin Denby, of Michigan; Secretary of Interior, Albert B. Fall, of New Mexico; Secretary of Agriculture, Henry C. Wallace, of Iowa; Secretary of Commerce, Herbert Hoover, of California and Secretary of Labor, James J. Davis, of Pennsylvania.

Bandits Hold Up Mail Train in Illinois; Escape With Loot Valued at \$150,000

Three Men Armed With Rifles Halt Chicago and Alton Train Near Louisiana, Missouri, Force Engineer to Detach Mail Coach From Train, and Drive Across River Into Illinois Where Robbery Is Committed.

Roodhouse, Ill., Feb. 25.—Three men armed with rifles, held up the Chicago and Alton train, known as the "Hummer" running from Kansas City to Chicago shortly after midnight last night and escaped with a registered package and registered letters taken from the mail car. The amount of the loot is not known, but it is reported that the bandits obtained \$150,000 shipped by a Kansas City bank to one in Chicago.

The robbery occurred near East Quincy, Ill. But was not reported to officials until the train arrived here early today. An attempt to rob

the same train was made three weeks ago but the bandits were driven off by the crew.

According to Engineer Donahue, the bandits halted the train near Louisiana, Mo., by waving flags. As he slowed down, the three men leaped aboard the tender of the engine and crawled over the engine tender, covered Donahue and the fireman with their rifles and forced them to detach the mail coach and baggage car from the train.

The bandits then forced the engineer to drive a mile or more ahead which brought them across the Mississippi river to Snell, Ill. There two robbers guarded the train crew while the third entered the mail car and robbed it. The bandits then deserted the train and disappeared in the darkness.

BEGIN DRAFTING REPLY TO U. S. NOTE

Paris, Feb. 25.—The work of drafting a reply to the American mandate note was begun today. It is being put in shape by A. J. Balfour of Great Britain, former British foreign secretary. The reply is expected to be sent to Washington next week. Leon Bourgeois of France at today's session of the league of nations council presented a report on the disarmament resolution presented at the assembly meeting in Geneva.

JURY DISAGREES IN TRIAL, REPORT

Dayton, O., Feb. 25.—Out since 3:30 Thursday evening, a common pleas jury was dismissed this morning, stung by the gun about battery and one for acquittal in the manslaughter case against William England, a truck driver, charged with the death of Charles Miller, June 5, last. It was claimed Miller and England disagreed after a business transaction and that England started to shoot Miller with a revolver. He did the "twirling" stunt, sending the gun about his fingers, when a bullet entered Miller's heart.

LABORERS SEIZE FRENCH FACTORY

Paris, Feb. 25.—Following refusal to reinstate 100 discharged workmen, about 1,000 laborers today seized a factory at Arras which is partly owned by M. Loucheur, minister of Liberated regions in the Briand cabinet. The workmen hoisted the red flag over the plant. The police are watching the situation carefully, but so far no clashes have been reported.

HEADQUARTERS OF RUM RUNNERS IS RAIDED THURSDAY

Detroit, Feb. 25.—Ecorse, a down river village, reputed to be the largest rummers headquarters in the country, was "cleared up" by federal prohibition agents Thursday night. Liquor in great quantities and a score of prisoners were taken.

DEFENSE COUNSEL IN MATEWAN TRIAL ROUTED BY STATE

Counter-Barrage Of the Prosecution Wins a Point.

Mingo County Courthouse, Williamson, W. Va., Feb. 25.—A solid battery of objections from the state sustained by Judge Robert D. Bailey, combatted a furious cross-fire of questions hurled today at Tom Felts, on the witness stand in the trigger trial, by J. J. Coniff, for the defense.

The state's counter-barrage was successful. It silenced Coniff's fusillade.

Thus broke down an elaborate attempt to draw from the head of the Baldwin-Felts detective agency answers to these questions:

1—Is the coal operators association contributing to the prosecution of Sid Hatfield and his 18 co-defendants in the trial for the murder of Albert Felts, brother of Tom?

2—Were the evictions of union miners' families by the Felts detectives which led to the battle of Matewan a part of a fixed campaign to wreck the Mingo branch of the United Mine Workers of America and defeat the mine strike?

With bulldog tenacity Coniff pursued his questioning on these subjects, defying and trying to circumvent the steady counter-fire of the five attorneys specially engaged to prosecute the case.

MEXICAN RAILWAYS CRIPPLED BY STRIKE

Mexico City, Feb. 25.—Railroad traffic is seriously crippled today as a result of the general strike. The government is taking a firm stand and President Obregon in reply to the "final demand" of the railway union for recognition declared he had "said his last word" upon the subject. In connection with the labor troubles there are reports of further revolutionary troubles in Yucatan.

GREECE WILL NOT ACCEPT TURK TERMS

London, Feb. 25.—Premier Kalligeropoulos, of Greece, head of the Greek delegation attending the near east conference today declared that Greece will not accept the terms proposed by the Turks for a settlement of the Ottoman problem. A member of the Constantinople or anti-nationalist delegation, declared that this government is disposed to accept a compromise plan of the allies "if it is sufficiently modified."

REFUSES FORTUNE RATHER THAN JILT GIRL HE LOVES

Boston, Mass., Feb. 25.—A jolly sea rover is Arthur C. McLaughlin and he loves a charming Irish girl at this port. Thereby hangs this story.

McLaughlin said today he had received word from Edinburgh, Scotland, that his uncle John McLaughlin, is dead and has left him 300,000 pounds (\$1,158,000). But—before he gets the money he must give up his sea roving, forget his Irish beauty here, and settle down in Scotland as the husband of a "bonnie Scotch lassie," the choice of his uncle.

"Nothing doing," said McLaughlin. "I love the sea and I love my pretty Irish colleen too well to give them up for money. There's something better than money in the world, and that's happiness. I'd rather live in a humble cottage with the girl I love than in a castle with a woman I didn't care for."

WOULD PROVIDE ENFORCEMENT OF TAXATION LAWS

Measures are Introduced To Enforce Uniform Rule.

CHOICE IS CONFIRMED

Senate Passes Favorably On Selection of Dry Commissioner.

Columbus, Feb. 25.—The senate has confirmed Governor Davis' appointment of Police Judge Don S. Parker, Ashtabula, Republican, as Ohio's first state prohibition enforcement commissioner.

Measures designed to provide for enforcement of the uniform rule of taxation have been introduced in the house as follows: By Miller, of Coshocton, giving officials the right to confiscate 50 percent of all property withheld from taxation and fixing the status of intangible property so that money invested outside the state by Ohio residents shall be taxable in the county in which the owner resides; by Robinson, of Lawrence, providing a 50 percent penalty for failure to list personal property and giving county auditors inquisitorial powers; by Cope, of Columbiana, giving tax officials power to inquire into bank deposits.

A bill authorizing liability insurance companies to participate in workmen's compensation insurance in Ohio has been introduced by Rep. Burns of Washington county. If enacted into law, the measure would restore the status which prevailed before the bill initiated by Ohio Federation of Labor was passed in 1917.

Senator Cornell, Wayne county, introduced a resolution proposing adoption of an amendment to the state constitution permitting use of voting machines.

With only seven opposing votes the senate adopted the Bender resolution providing for a legislative state wide probe of the natural gas situation including production and methods of distribution. The charge is made that much gas is wasted and that companies are making unreasonable profits. The attorney general is to aid in the probe.

Although the senate has recessed until March 8, due to President elect Harding's inauguration the house recesses until Tuesday for a brief session to permit the introduction of the governor's bill reorganizing state department. Then it will recess until March 7.

ACCEPTANCE BY HOOVER OF JOB BIG SURPRISE

Announcement Comes Out Of Clear Sky To Harding Party.

SILENT ON "TERMS"

Presumed That Next President Consented To Proposals.

St. Augustine, Fla., Feb. 25.—President-elect Harding today confirmed reports of the appointment of Herbert Hoover of California as secretary of commerce and Henry Wallace of Iowa as secretary of agriculture.

St. Augustine, Fla., Feb. 25.—Announcement by Herbert Hoover in New York, that he had accepted the post of secretary of commerce in the Harding cabinet came as a distinct surprise to the members of President-elect Harding's party here. Mr. Harding last night and early today denied himself to inquiries on the subject. It was indicated that a statement might be forthcoming later.

While it has been generally expected all along that the former food administrator would be a member of the cabinet, the circumstances which surrounded his entrance were unusual. As late as six p. m. yesterday President-elect Harding told questioners that as yet there had been no definite tender of the commerce post to Mr. Hoover and he declined to comment on the "terms" which Mr. Hoover laid down as preliminary to his taking up the portfolio.

It is to be presumed the president-elect gave his consent to Hoover's coming to the European relief work as well as to his plans for reorganizing the department of commerce.

Today the president-elect planned to leave St. Augustine shortly before noon and motor to Jacksonville where he will spend the rest of the day and the evening. He will be the guest of Jacksonville business men at a luncheon and in the evening will attend the exhumation of thirty-second degree masonry, motoring back to St. Augustine tonight.

WANT CENSORSHIP ON PICTURE SHOWS GIVEN IN XENIA

Committee Waits On City Commission Thursday Night.

An appeal to the city commissioners for a city board of censors, to control the showing of motion pictures here, was made by a lay committee to the city governing body Thursday night.

Heading the committee which called on the city commission were Rev. E. W. Middletown, of the First Reformed Church, Rev. C. P. Proudfoot of the Second United Presbyterian Church, Rev. Pimm of the Friends Church, Mrs. M. L. Snodgrass, Mrs. Mary L. Collins and Mrs. Walter L. Dean.

Speakers for the committee stated to the commissioners that the motion pictures are a source of causing much crime, especially among children, who witness the picture shows, and are greatly influenced by the pictures. They asked that the commissioners appoint such a board of censorship to control the showing of films in the local theaters. City Manager Kenyon Riddle was appointed a committee of one to confer further with the lay committee.

APPROPRIATION BILLS JAMMED IN HOUSE

Washington, Feb. 25.—House leaders today were pessimistic for the first time over chances of passage at the present session of congress of all the appropriation bills.

The Senate committee have added \$100,000,000 to the navy bill as it passed the house, and about \$42,000,000 to the army bill besides raising the permissible enlisted strength of the army from 150,000 as fixed by the house to 175,000.

The house is determined to enforce its policy of economy. The navy and army bills as they come from the senate probably will be rejected by the house and the fight against the huge increases in appropriations made by the senate will be fought out in conference.

DES SCHOOL STAGES NOVEL PROGRAM

The Goes school staged a clever entertainment as a social affair for a people of Goes and vicinity Thursday evening.

The rooms were decorated in patriotic colors, and large framed pictures of Lincoln and Washington adorned the wall above the platform. The Delco system furnished abundance of light for the occasion.

The program displayed careful training of the pupils, and consisted of songs, exercises, recitations, trios and quartets. The Snow Ball Drill; the playlet, "Patty Saves the Day;" the exercise, "George's Presence of Mind;" by the Grammar Room; and the Dramatization of "The Old Woman that Lived in the Shoe," by little Margaret Heeg of a Primary room won special praise on the large audience.

Hon. W. B. Bryson delighted the audience with a brief address on "Community Welfare," and Supt. James' address on "The Present Outlook" was well received.

Miss Elizabeth Ray, teacher of the Summer Room, acted as chairman, and Miss Louise Bone, teacher of the Primary Room, presided at the piano.

UNERAL SERVICES ARE HELD THURSDAY

Funeral services for Mrs. Frank W. Considine were held at the late home, Linn and Miller Avenues, Thursday afternoon at 2 o'clock, in charge of Rev. G. A. Scott, of the First Methodist church. Pallbearers were six women, members of the two lodge of which Mrs. Considine was a member. Mrs. George Smith, Mrs. Charles Gretsinger and Mrs. Asa Rice represented the Royal Neighbors, and Mrs. Myrtle Van Pelt, Mrs. Walter Shumaker and Mrs. John Genger the Maccabee lodge. Interment was made at Woodland cemetery.

ORONER REPORTS TRAGEDY

Dayton, O., Feb. 24.—Death by accidental drowning, was the finding of Coroner E. E. Kimmell, after investigating the death of Miss Anna Davis, Cincinnati, who lost her life when an automobile carrying Cincinnati people plunged into the canal south of here, Tuesday night. Miss Davis' body is held at Hamiltonburg for relatives.

ACTIVITIES OF GREENE COUNTY AUTOMOBILE CLUB DISCUSSED AT BANQUET THURSDAY

Almost 100 hundred members of the Greene County Automobile Club and their friends attended the meeting and banquet of the organization held at the Chamber of Commerce Thursday evening.

Although disappointed by the inability of a number of the invited speakers to be present, the program proved interesting and marked a big step forward in the progress of the club. The banquet was served by Mr. Kany, honorary member of the club, following devotions offered by Rev. G. A. Scott, pastor of the first M. E. Church, and a colored orchestra kept things lively during the meal.

Dr. A. C. Messenger, president of the club acted as toastmaster for the evening, and called on a number of speakers in prompt. John W. Prugh first speaker of the evening expressed himself solidly as a booster for the new club. I don't think we need any speakers to convince us that we need an automobile club," said Mr. Prugh. Mr. Prugh said that there had always been too much difference between the country people and city people, and that the organization of automobile club, in which both sides

are banded together in a common interest, will do much to alleviate this feeling. "If we could get together as a body of people and eliminate that word 'greed,' Greene county would be known as the model County of the world and Xenia as its model city," he said.

S. M. McKay, chairman of the committee on signs and road routing, made a report of the activities of his committee. Frank Fisher as chairman of the committee on securing a reward for the arrest and conviction of auto thieves and as chairman of the membership committee, gave two reports concerning the activities of his committees.

Earnest Beatty, chairman of the committee on quarters, reported, and Secretary F. J. Slackford, speaking for the emblem committee, reported that the emblems are now being constructed. H. C. Autman, county Superintendent of Schools, spoke of the relation of the automobile to the rural school problem. He said that there was a tendency for country people to move to the city now, and that one of the big reasons for this is the question of better schools. The cen-

tralized school solves this question, explained Superintendent Autman, but with centralized schools it is necessary to have better roads, and this is one of the things for which the automobile club stands for. The salvation of the schools is in the hands of men such as we see here tonight," he said. "It is a problem for your Chamber of Commerce, the Farm Bureau and the Granges."

R. G. George of Jamestown, A. Z. Smith of Cedarville, Ed. Ballard, of near Xenia, W. H. Donges, and F. A. Jackson solicitor of the club, were among other speakers. Dr. R. H. Grube, explained the new pure water supply of Xenia and proposed a toast to "a good, pure, abundant water supply for all automobile owners."

Rev. G. A. Scott, pastor of the First M. E. Church, boosted the organization in a brief talk in which he responded to the call of the toastmaster. Practically everyone present volunteered to accompany a booster trip to the towns of the county in the interest of interesting the membership of the club, and this plan will probably be followed.

FIERY, ITCHY SKIN QUICKLY SOOTHED BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Mentho-Sulphur may be had at any good drug store.

Buick Valve In Head

Motor Cars

Today, as never before, a motor car is purchased as a dividend earning investment—dividends of utility, service, economy and resale value.

The twenty years performance record of Buick Cars and the power and reliability of the famed Buick Valve-In-Head motor are thoroughly familiar to the public and explain, in a measure why Buick is so generally recognized as a sound investment.

The low stream-lines of the 1921 Models give these cars an appearance of grace and dignity. A greater roominess of tonneau and space provided adds motoring comfort. Both elements are well expressed in the new 1921 Models.

When you buy a Buick car you are assured of service wherever you go, as there are Buick Service Stations in any City.

Buick owners will get better service by going where they see the Buick sign.

EASTERN STAR LODGE CELEBRATES ANNIVERSARY.

An interesting program was given by the members of the Eastern Star Lodge, in celebration of the fourteenth anniversary of the lodge's foundation, at the Masonic Hall, Wednesday evening.

The program of the evening was in charge of Mrs. Fred Fisher with other members taking part. The first number of the program was given by a clever method, and was in charge of Mrs. Howard Norris who read the history of the chapter during the entire fourteen years. The history was illustrated by members of the chapter who represented officers of the lodge, being shown in the form of a picture. Officers for each of the preceding years were shown, and a short talk was given by Mrs. Norris upon the deceased members.

An especially striking scene of the program was given in which Mrs. Frank Shelley took the leading part. The title of the small sketch was "A Garden of Old Fashioned Roses." Taking part in the sketch were the Misses Gladys Shadrach, Edna Wolf, Margaret Regan, Martha Wilson, Ruth Washburn and Doris Meahl.

The next number, on the program were two vocal numbers given by Miss Bertha Gardner and Mrs. Fred Coy.

Following the program a social time was enjoyed by the guests, games and contests being arranged by the members. The members and their families totaled a list of 150 guests.

OBITUARY

James William Roberts, the subject of this notice, was born in Fayette County, Ohio, May 16, 1863, and died at Xenia, Ohio, November 12, 1920, age 57 years, 6 months and 6 days.

The deceased was a gentleman who was noted in the sphere in which he moved, as one possessing many rare and beautiful qualities of mind and heart. His kind and affectionate manners with no love for display, made him an agreeable and ever welcome guest. As a friend and neighbor he was generous and kind. Always a liberal giver to every good and worthy cause.

The deceased was one of six children of John and Susanna Roberts, of which only two survive, John Roberts and Mrs. Mary Hughes.

On the 25th day of November, 1875, he was united in marriage to Phoebe Jane Sites. To this union were born five children, two sons and three daughters, one son, William Clarence having died in early manhood.

Those left to mourn the loss of a dear father, are, Cammie E. Roberts of London, Ohio, Iva Finn of Dayton, Ohio, Grace Webb of Xenia, Ohio, and Minnie Spahr of near Jamestown. These with the wife, four children and five grandchildren, and a large circle of friends and relatives are left to deeply and sadly mourn their loss.

The inevitable hand of time is constantly gathering the sheaves of life. While the deceased had lived his allotted time, he had a few years of life expectancy before him, but, for the untimely accident that caused his death. He was a member of the Brotherhood class of the Friends Church and also of the Junior and K. of P. Lodge and of the Jamestown Quoit Club.

He has gone from his dear ones, his children, his wife. Whom he willingly toiled for, and loved as his life. Oh, God! how mysterious and how strange are Thy ways. To take from us this loved one, in the best of his days.

AN OBITUARY OF A LOST JEWEL

Mrs. Flora Considine, deceased, was born in Terre Haute, Indiana, May 13, 1882, and died February 21, 1921, age 38 years, 9 months and 8 days. Her marriage to Mr. Frank Considine taking place October, 1899. To this union were born five children, Eugenia, Margaret, Richard, Francis and Kenneth. She is also survived by her parents, Mr. and Mrs. John Baker, two sisters and three brothers, Edna May, Lizzie, Harry, Henry and Sherman, who deeply mourn their loss.

A precious one from us has gone, A voice we loved has stilled.

A place is vacant in our home Which never can be filled. God in his wisdom has recalled Thy boon His love hath given Although thy body molders here, Thy soul is safe in Heaven.

CHARTER PRESENTED TO XENIA ROTARY CLUB AT BANQUET

The newly organized Xenia Rotary Club was formally presented with its charter, at the anniversary celebration of the Dayton Rotary Club, held in the Rike-Kumler dining room Thursday night. W. E. Harbottle, secretary of the Dayton Club made the presentation before about 300 Rotarians and their wives, who were on hand to observe the 16th anniversary of the establishment of Rotary.

C. L. Darlington, president of the local club responded to the occasion with a short speech. About thirty Xenians, members of the local club and their wives were present as the guests of the Dayton organization. They were introduced to the other Rotarians present as the newest club in the state, which is No. 828.

The banquet Thursday night took the place of the regular Friday noon meeting of the Xenia Club.

HORSES RUN AWAY; AUTO IS DAMAGED

Becoming frightened at a small building that was being loaded upon the wagon they were hitched to, a team of horses belonging to L. B. Luttrell, dashed away from the residence of John Huston on North Detroit Street and ran several blocks before their flight ended in a collision with the Essex touring car belonging to John A. Hamer of the upper Bellbrook pike, Friday morning at the corner of Detroit and Market Streets. No one was injured in the accident. The back curtain of the machine was torn and the rear of the body crushed.

COUNTY AGENT WILL RECEIVE MARKETS

County Agent Ford S. Prince of the Greene County Farm Bureau has made arrangements to receive full market reports at his office in the Federal building every morning.

Three of the reports will be received from Chicago, one from Pittsburgh, one from Cincinnati and one from Dayton. The new service will start March 1, and after that date information regarding the markets will be given to members and people interested by telephone.

PATRIOTIC TALKS GIVEN IN SCHOOLS OF CITY THIS WEEK

Patriotic talks and instructions were given this week in the Xenia schools, by a committee from the Women's Relief Corps, which visited the different class rooms.

The Committee was headed by Mrs. Oliver Whitson, president of the Corps and Mrs. C. W. Linkhart patriotic instructor and included Mrs. William Ellsbury, Mrs. Howard Norris, and Mrs. D. B. Watt. At Central High School, nine flags were left with Principal Harper Pendry for distribution in the different rooms, and flags were distributed to all the grades, 16 flags being given away in all.

Mrs. Linkhart made an address at the meetings, Mrs. Ellsbury gave a reading and the teachers and scholars responded with a salute.

UNITED STATES HAS THE GREATEST SALT DEPOSIT IN THE WORLD.

Although salt is one of the most common minerals, it is the most used in our daily life. The annual production in the United States is somewhat more than 7,000,000 tons, and the aggregate production in foreign countries is more than 10,000,000 a year. Some of this salt is from the sea, much of it comes from surface deposits in basins of lakes or former seas, and a large proportion comes from beds in various geologic formations at greater or less distances below the surface.

It has long been known that a thick salt bed underlies part of Kansas, the source of salt produced at Hutchinson and its vicinity, but its extent was unknown. Many holes drilled for oil purposes during the past few years have shown that this salt extends continuously across western Oklahoma, northern Texas, and far into eastern New Mexico. The limits are not yet fully determined, but in general the region underlain by salt is fully 650 miles long from north to south and 150 to 200 miles wide from east to west—a total area of about 100,000 square miles.

The thickness and succession of the beds is variable, but 700 feet or more of pure salt are known in some holes and in many places the aggregate is more than 300 feet. It is by far the largest known deposit in the world. The salt does not come to the surface, but lies mostly from 500 to 1000 feet below. In Kansas the salt underlies all the south central counties and may extend as far north as the Nebraska line. Its thickness is about 100 feet at Anthony and Kingman and more than 200 feet in an area of large extent. In Kansas it lies from 200 to 1200 feet below the surface.

In Oklahoma the great salt succession appears to underlie Harper, Woods, Ellis, Woodward, Roger, Mills and Beck counties, and a thickness of 580 feet is reported in some places. Many borings in the Panhandle of Texas have proved 284 feet of pure salt was penetrated and near Roswell the thickness is 520 feet, while other holes show a thickness of 200 feet or more. The southwestern limit of the deposit is not yet known; it may extend in considerable thickness under the Pecos Valley some distance into Texas.

So far the only utilization has been in the Lyons-Hutchinson area in Kansas, where high-grade salt has been mined in shafts obtained by evaporating brine pumped from bore holes. The amount of salt in the region above described, assuming an average thickness of 200 feet under an area of 100,000 square miles, has been estimated by the U. S. Geological Survey as about 30,000 billion tons, or enough to supply the world for many million years at the present rate of consumption.

OUR NEW SECRETARY OF STATE.

Over and above the entire suitability of Mr. Hughes' selection as the most important place in the cabinet, there will be general approval of Mr. Harding's assurance that in the administration of foreign affairs of the nation the new secretary of state will be something more than the mere mouthpiece for his chief. From the beginning," Mr. Harding said, "the secretary of state will speak for the State Department." The significance of that statement lies in its application to recent history and to the peculiar position of the officials who have held that high post during the administration now nearing its end. It is not to be inferred that the next President has no intention of sharing the responsibilities of the adjustment of the complex and troublesome foreign relations of the United States, but his statement clearly means that the secretary of state will be the secretary in fact and not merely a name and that his true judgment and his knowledge will be brought to bear fully on the solution of all the problems confronting the department.

The task before the new secretary is not a simple or easy one and the spirit in which Mr. Hughes has undertaken the burden is one that should serve as an example for others to whom the service may come. That it involves a sacrifice is certain, looking upon the summons as an imperative duty Mr. Hughes has undertaken it in a spirit of patriotism and self-abnegation that is wholly admirable.

THE DEMOCRATS HAVE PLENTY OF TIME.

The result of the movement in the Democratic national committee for a party reorganization seems to be, so far as any result can be ascertained, that there will be no reorganization. Not yet, at least. The decision probably is as wise as any decision of a party is likely to be. There seems to be no special reason for hurry, as the Democrats haven't any appointment to keep.

If there is anything that can be done for the Democrats probably can do it better than any other agency. And for the thing that hasn't been taken away from them. There is some question, too, whether in view of the constitutional function of the Democratic party it is necessary that it should ever be reorganized. It is well known that the Democrats win elections because they are organized. They win because Republicans are disorganized. So the executive committee will take no steps to hurry the process of time, the Democrats' best friend. Time, hope and a money for overhead expenses is all the Democrats will need the next couple of years anyway. After that they will need candidates in order to make the congressional elections legal, there is no immediate need of notifying these gentlemen of it is coming to them.

Mr. Perry Comford has been offered a position as pitcher on the Milwaukee baseball team for the coming season. Perry is one of the crack pitchers of the city and would make a good one for the club but he has not yet decided to accept the position.

Horace L. Pierce, the contractor for the Xenia work house is here superintending the placing of the engine and machinery which is being put in the workshop at that institution preparatory to making brooms and mops. The work house will be soon lighted with acetylene gas, arrangements having been made for putting in a forty light machine.

The Miami Telephone Com-

pany having leased the second story of the Crandall building, it is necessary for the Miami Grain Company to seek new quarters and the firm has arranged to locate in the Allen block, taking the rooms which are now occupied by Mr. Watt Frame.

A tour of inspection of Orient Hill has been made by the members of the Xenia school board and in an informal way the question for a site for the new school building to be erected in that portion of the city was discussed. The new building will consist of two rooms with basement and the wall will be of sufficient strength to permit the addition of two other rooms should it become necessary for the future growth of the city.

JAMESTOWN LEGION HAS DRAMATIC CLUB

A local talent show for the benefit of Wilbur H. Thomas Post of the American Legion at Jamestown, will be given the second week after Easter it is announced by Legion officers.

For the purpose of staging amateur productions an American Legion Dramatic Club has been organized by the girls of Jamestown who are cooperating with the Legion in the matter. Miss Marjorie Galvin, is chairman of the club. Miss Cleo Zeller, vice chairman, Miss Hazel Walker, secretary and Miss Clara Beal, treasurer. A publicity committee consists of Mrs. Joseph Hayship, Miss Catherine Shigley and Miss Arthelia Lientance.

This organization will sponsor the home talent production to be given after the Lenten season is over.

OLD FOLKS MADE NEW

BEAUTIFYING PLANS FOR CITY PRESENTED TO COMMISSIONERS

Dr. B. R. McClellan, chairman of the beautification committee of the Chamber of Commerce, presented a plan for beautification of certain sections of the city to the city commission Thursday night.

Dr. McClellan explained that his committee is working on a plan to greatly improve certain sections of the city that can now be termed eyesores, and make of them beauty spots. He cited particular instances where beautification would be a big improvement, including the track of land along Dayton Avenue between Market street, Main Street and the Shawnee Creek, which would be converted into a small park, and greatly improve the looks of one of the main entrances to the city.

Dr. McClellan asked the support and co-operation of the city officials in his project, and the commissioners expressed themselves as heartily in favor of the plan.

INFANT DIES ONLY TEN DAYS OLD

BEAUTY CHATS

POOR HUMANITY.
Sometimes I think the human race has very little fun; less pleasure than the brutes that chase and gambol in the sun. I'd like to be a bob-o-link and circle in the air; for little birds like this, I think, know naught of human care. They bear no burden on their backs, no weary load that kills; they do not pay an income tax, or face big monthly bills. I'd like to be a kangaroo upon a desert plain, and I would hop a mile or two, and then hop back again. Sometimes sad thoughts like these I think, when life has made me hot; but some one shoots the bob-o-link, and I remain unshot. The lower animals I view, and think them satisfied; but some one slays the kangaroo that he may tan its hide. "I'd like to be a crocodile," in peevish mood I wail, "and I would swim the storied Nile and smash things with my tail." But crocodiles know little mirth, and much of woe they've known; for every critter on this earth has troubles of its own. But cats and wolves and grizzly bears and cows and birds and snakes don't publish forth their daily cares, their little pains and aches. They take existence as it comes, the bitter with the sweet, and, being short of muffled drums, they look for things to eat.

BODY SENT TO TOLEDO

Toledo, O., Feb. 25.—The body of Ewing Love, 32 years old, formerly a railway mail clerk at Fremont O., was sent there following action of yesterday, when he ended his life in a hotel room here. He left a note saying he was not deranged mentally but that "life was not worth living." He was a war veteran and recently resigned his position after being seduced.

Millions Use "Gets-It" For Corns

Stops Pain Instantly—Removes Corns Completely.
Everybody, everywhere needs to know what millions of folks have already learned about "Gets-It," the guaranteed pain-

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

BEAVER CADETS WIND UP GOOD SEASON WITH VICTORY THURSDAY

Winding up their official season the Beaver Cadets of Alpha, defeated the Dayton Buckeyes in a closely fought and interesting contest at the K. of P. Hall in Alpha Thursday night, 42-38.

The Buckeyes were no mean competitors as they soon evidenced on the floor, and they gave the Brill brothers a real battle as their season swan song. "Yank" Stephens, was the individual star of the Cadets' attack, making 24 out of the 42 points, with nine field goals and six free shots, while Homer Brill was next high man with five fielders.

A. Clayton, playing center for the visitors, was six feet, six inches tall, and he towered above Kitt of the Cadets. His size, more than anything else, enabled him to make six baskets, tying Birschberger, with a like number.

The Cadets concluded a successful court season with the victory Thursday night. In sixteen starts the team has won 13 games and had been defeated three times once by the Shamrocks and twice in this city. The lineup and summary: Cadets (42) Buckeyes (38) Homer Brill . . . f. . . Hirschberg Stephens . . . f. . . Quinn Kitt . . . c. . . A. Clayton Harry Brill . . . g. . . Ryan S. Brill . . . rg. . . Middleton Field goals: Stephens 9, Homer Brill 5, Kitt 3, Harry Brill 1, Hirschberg 6, Quinn 4, Clayton 6, Middleton 1. Foul goals: Stephens 6, Hirschberg 1, Quinn 4.

MUSKINGUM COLLEGE GRIDIRON SCHEDULE UNUSUALLY STRONG

Spring football training will be instituted for the first time at Muskingum College, New Concord, this year, in preparation for one of the hardest schedules ever arranged for a Muskingum team.

Twelve letter men are included among the number of prospects who will answer the call for the first spring work out. The football schedule as announced is unusually well balanced, starting out light and gradually working up to some serious grid conflicts that occupy the late part of the season.

Among some of the gridiron combinations to be faced by Coach Henderson's moleskin artists next fall are three Ohio Conference teams, Kenyon, Wittenberg and

Akron. Wittenberg is rated as the strongest grid combination in the Conference, King Wooster for state honors last fall while Akron was also undefeated in the Conference, tying one game. The game with Earlham College will be Muskingum's initial appearance in Western football.

The schedule prepared is as follows:

September 24.—Wilmington College at home.

October 1.—Defiance College at home.

October 8.—Kenyon College at Gambier.

October 15.—Wittenberg at Springfield.

October 22.—Rio Grande at home.

October 27.—Dayton at home.

November 5.—Akron at Akron.

November 12.—Earlham at Richmond.

November 19.—Baldwin-Wallace at home.

LOCAL LAD LOCATES LOOP LIVELY

"Bob" Moore, Xenia boy, and a Junior at Muskingum College, New Concord, is one big reason why the Muskingum basketball team is establishing a record on the court this season.

Muskingum has won 12 of the 14 games played this season, losing only to Marietta, 37-14 and Grove City, 34-27, and defeating such teams as Pittsburg Seminary 19-17, Marshall College 34-14; Toledo University, 44-13; Bethany 27-19; Duquesne University 26-20; Baldwin-Wallace 35 to 12 and Capital City University of Columbus 37-31.

Muskingum has scored 462 points to 289 garnered by the opponents, and of these Moore has contributed 114 points from field goals alone, having tossed 57 so far this season. Bell, a Freshman center, is his nearest competitor with 34 field goals, which shows that the local boy is tossing them in with as much regularity at New Concord as he did when Captain of the Central High team here a few years ago.

Only two players, Boyd a forward and Brown a guard, both Seniors, will be lost to the Muskingum team through graduation this year, and the local lad will be among those back at school available for the squad next season.

MAYOR CALLS HALT TO BOXING EVENTS

Owing to an order issued by Mayor J. A. Mercer, the boxing events scheduled to be given by Wilbur H. Thomas Post of the American Legion in Jamestown at the Legion Hall

YELLOW SPRINGS WINS SECOND ROUND OF MEET AND CHANCE TO PLAY CAESARCREEK

The breaks were with Yellow Springs High School basketball team Thursday night, the up-county crew nosing out Port William by one point in the second round of the county high school basketball tournament being conducted by the Central High School Athletic Association, and thus the right to meet Caesar Creek Friday night in the finals.

Port William, unable to shoot from the free line, and a little over anxious, played better basketball than did the Yellow Springs lads, but the latter quintet was capable of making every point count, the final score being 12-11. Fouls won for the Yellow Springs lads. They only secured four field goals, but they tossed four fouls to one registered by the Port combination.

Port William won the right to stay in the game by eliminating Bowersville in the opening game by the score of 28-10. Yellow Springs went into the semi-final, through a defeat of Jamestown 17-10. Another large crowd witnessed the second round of the tournament, which will conclude Friday night with the championship game between Yellow Springs and Caesar Creek for the championship. Central High has challenged the winner of this game for a contest to be played immediately afterward which however will have no bearing on the tournament standing.

The Port Williams-Bowersville game, lineup and summary:

Thursday evening were called off at the last minute.

A number of Dayton boxers, including Frankie Mantell and Batling Davis, who were to be the headliners had donated their services to the Legion, the proceeds of the athletic program to go to the Post fund.

Agitation against the boxing program was started Monday and Mayor Mercer ordered that the events be called off. As a result it is possible that Wilbur H. Thomas Post, will cooperate with Joseph P. Foody Post of this city, in an effort to have the same boxers appear here for the joint benefit of the two Legion Posts.

SERIOUS SHORTAGE OF STUDENTS SEEN IN MEDICAL COLLEGES

Cambridge, Mass., Feb. 24.—There is serious shortage of young men in the medical sciences today in the United States, and the laboratory branches of medicine will suffer unless a change takes place in the current of young men taking up medical careers, according to Dean David L. Edsall, of the Harvard Medical School.

Dean Edsall states that the clinical branches of medicine are getting such a large proportion of the young men in the profession that in the laboratory branches "there is really a disturbing paucity of capable and well-trained instructors, and even of seniors," and his fears that if things go on as at present the laboratory branches "will suffer seriously in both their instructional and investigative activities, and perhaps go through a period of decided deterioration."

"Most men who enter medicine," continued Dean Edsall, "do so with a predominating interest in its human aspects, a moderate number with the human and scientific somewhat equally mingled, but with the scientific often rather predominating while the number with whom the scientific interests is wholly in control is small. The latter do not suffice, and the middle group has supplied most of the younger workers in the medical sciences."

To meet the need Dean Edsall reports that the Harvard Medical School faculty has recently decided to offer the degree of Doctor of Medical Sciences, hoping that men who are interested in the scientific side of medicine will try for this degree. He also urges that the colleges and especially colleges instructors, shall point out to students the possibility of service to science which is to be found in the field of medicine.

FIRE DAMAGES HOME ON EAST MAIN STREET

Fire at the home of Mrs. Bertha Williams, on East Main street, caused considerable damage at noon Thursday.

There was no one in the house Thursday, and passers-by noticed smoke at 9:30 but did not notify the department. At 11:30 o'clock the smoke was so thick, that a pedestrian turned in the alarm, and when the fire department answered the call, two rooms of the frame cottage were on fire. The blaze is supposed to have started from a defective flue, and damage to the rooms and contents will be serious.

Working Hard Every Day Without Let-up Wears You Out

IN TIME SOMETIMES YOU NEED A TONIC

Pepto-Mangan Makes Rich Rich Blood and Lifts You Out of Bad-Health Ruts

There are days when you feel downright sick. You think you couldn't feel any worse. Yet, as far as you know there's nothing the matter with you. From the time you get up in the morning till you go to bed at night, you are tired. You feel as though you'd like to sit down and do nothing. You look tired and pale and haggard. You get careless about your dress.

No wonder! Your blood is all clogged up with poison. Your power of resistance is at a low ebb. Your blood needs food. It needs the help that the vitalizing tonic, Pepto-Mangan, will give it. Instead of feeling exhausted and tired out for months, you will soon pick right up and feel well and strong again. And with good red blood you are able to fight off ailments.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is prepared in both liquid and tablet form, and you can take one or the other and receive the same benefits.

Sold at any drug store. But be sure you get the genuine Pepto-Mangan—"Gude's." Ask for it by the full name and be sure the full name "Gude's Pepto-Mangan" is on the package.

Toledo Woman Gains Fifteen Pounds And Overcomes Troubles Of Three Years' Standing By Taking Tanlac.

"If there was ever a day in my life when I felt better than I do now, I can't remember it," said Mrs. Albert Wolf, 969 Curtis St., Toledo, in relating her experience with Tanlac.

"Tanalac has not only relieved me of my suffering, but has built me up fifteen pounds in weight, and I just think it is the grandest medicine in the world."

"For three years I had been gradually becoming run down, and was constantly having terrible sick headaches when everything turned black before me and I got so dizzy I couldn't stand up."

"My nerves were so upset I just rolled and tossed the night through, and mornings I got up feeling tired and worn out."

"I fell off until I was very thin, and became so weak I could scarcely look after my household. Then, too, I suffered almost all the time with an awful pain in my back."

FINANCIAL DRIVE FOR NEW BUILDINGS ON AT WILBERFORCE

A campaign to raise \$100,000 for the erection of two new dormitories for boys and girls, was the outgrowth of the annual Founder's Day exercises celebrated at Wilberforce University Thursday.

President J. A. Gregg of Wilberforce said this morning that there are now 1260 students registered at Wilberforce, which is 550 more students than ever before enrolled in the school. Besides this large number 500 more students had to be turned away because they could not be given accommodations at the school.

Bishop J. H. Jones, of Wilberforce, who is head of the Third Episcopal district of the A. M. E. Church was able to report subscriptions amounting to \$8,360.80 from his churches and from the students, the latter raising their quotas according to groups. The individual student subscription amounted to \$1,437.84. These are not the final figures and it is not thought that the final results of the drive will be known complete until the middle of March.

The amount thus subscribed, will be combined with \$12,000 which the University now has on hand, making over \$20,000 which will be used as a nucleus in the campaign to raise the money for the new dormitories.

Bishop B. F. Lee of Wilberforce who returned from a visit in the South to be present at the Founders Day celebration delivered an address Thursday morning and he was followed by Dr. Thomas J. Jackson who bears the distinction of being a member of the first graduating class of Wilberforce in the year of 1870.

Rev. E. A. Clark and Rev. J. O. Haycock both of Columbus, spoke at the afternoon program of the celebration, Rev. Clark giving an interesting account of the history of the college, beginning with its foundation Aug. 30, 1856 by Bishop Daniel Payne. President J. A. Gregg of the University presided at the meetings during the day.

In the basketball game which was played in the evening, Wilberforce University lost to West Virginia Institute 38-18. Following the basketball game a musical program was given in Galloway Hall and students took part in the annual rally.

More Strength To Nerves In Every Grain of Phosphate

Organic phosphate is a necessary constituent of every cell in your body, but especially of those that go to make up nerve and brain substance. Lack of a sufficient quantity of organic phosphate known to pharmacists as Bitro-Phosphate means that you are nervous, easily tired, have no ambition and are mentally fatigued. To correct this condition and to rebuild your exhausted nerves, so that strength and health will be yours, ask Sayre & Hemphill for a supply of Bitro-Phosphate and take two five grain tablets with each meal.

Prune Brown Betty—Cover bottom of a buttered baking dish with coarse bread crumbs. Cover with a layer of cooked prunes from which pits have been removed. Dust with sugar, cinnamon and nutmeg. Pour over one-third cup milk; repeat and cover top with buttered crumbs. Bake until crumbs are brown.

Plum Pudding—Six crackers, three pints milk, one-quarter cup butter, one cup sugar, one-half teaspoon salt, one teaspoon mixed spices, six eggs, one pound stoned raisins.

Soak crackers in milk. Cream butter and sugar; add salt, spice and eggs well beaten, and stir mixture into the milk. Add raisins. Bake in a deep pudding dish, well buttered with cold butter, for three or four hours over a low fire. Stir several times during the first hour to keep raisins from settling. Serve with hard sauce or whipped cream.

Indian Pudding—One quart milk, one-half cup cornmeal, one-half cup molasses, one teaspoon salt, one teaspoon ginger or cinnamon, one cup cold milk.
Heat one quart of milk and stir in the meal slowly until it thickens. Take from the stove and add molasses, salt and spice. Put mixture into a buttered earthen pudding dish and add cold milk. Bake over a low fire for two hours. After the pudding is partly cooked a little more cold milk may be added if desired. Serve with or without cream.

THE WOMAN HE MARRIED

A PERIOD OF DEPRESSION Chapter 100

I went into the study and laid Junior's letter and report in front of Dick.

"The boy is doing splendidly," I said. "See what a good report he has for the last quarter."

How glad I was to have something of mutual interest to talk about, something which would steady me.

"That's bully!" he said as he looked over the marks, then picked up the letter.

I watched his face as closely as I dared while he read. Suddenly there came before me that look of relief I had seen that day at the station. Had he been afraid the boy would see and know? The thought brought belief. That was it! Even then, so long ago, he had loved Juanita.

Other thoughts followed in quick succession, other things whose impressions had been so faintly registered that they had left me almost as soon as received. I recalled the look on his face the night of her housewarming—that had been the beginning I felt sure. Had I not been blind I would have noticed it then—that he was commencing to care for her—and I could have perhaps done something before it had gone too far.

I compelled my thoughts to a halt. I would not admit it had done that—gone too far. Not yet. I would be sure. Of course he cared for her or he would not have held her in his arms. But it might have been a sudden temptation—she was fascinating in that sapphire dress.

"A nice letter. I am glad he enjoys the school."

"We shall have him for a whole month, Dick! I am so delighted I can scarcely contain myself."

"I am glad he is coming now, because I have got to—be away!"

"Away! How—where?" I stammered. Dick never had left me for a day since we had joined him in the desert.

"I have to go to Chicago."

"What for?"

"Don't ask questions in that tone! To see a publisher. One would think I had no right to go."

"It isn't that, Dick, but when Junior has been away so long. Can't you go some other time—or write?"

"I am the best judge of what I can do and when."

I said no more but left him. Here was a new situation. Was he going because Junior was coming and he feared the boy's sharp eyes? How they, Dick and Juanita, must have laughed at me! What a fool they must have thought me! How they must have sneered at my trust, my faith in them, when day after day I left them alone in the study for hours at a time.

"You mustn't think of those things if you are going to win him back," my inner consciousness admonished me.

"I won't," I promised, not realizing it was a promise impossible to keep to the letter, although I might do my best to keep the spirit of it.

"Hello dad! Mother dear!" Junior boy-like, had taken a train arriving home an hour earlier than we expected him. "Gave you a surprise, didn't I?" he asked gleefully as he

threw his arms around my neck, then shook hands with his father.

"I should say you did!" I returned as I reached out for him again. "I was just getting ready to go to the station."

"I told my buddy I would surprise you. He's coming over some time during vacation. Mother, if you can have him? He's a dandy and has dandy folks. They live in Los Angeles. His mother has been good to me, and so has his dad. I know you'll like him. He's the right sort, no blub in Denrick."

I assured Junior I would be delighted to have his buddy visit us, but I noticed that Dick said nothing. Now I was keenly aware of my husband's attitude—perhaps apt to go to the other extreme and make more of things he did, his looks and manner, than I should. But just then even his irresponsiveness could not worry me. I had my boy.

As I looked at Junior, almost as tall as his father, with Dick's eyes and features—Dick as he was when I first knew him—I could scarcely believe he was my boy, my baby. I breathed a prayer of thanks that I had him, his love.

Incongruously came the thought—Some day he, too, would find another woman to put in my place.

Tomorrow—Sunshine and Shadow.

CITY TO ISSUE BONDS FOR NEW WATER WORKS

Issuance of \$35,000 To Complete Plant Is Authorized.

STATE TAXES ISSUE

Action Made Necessary By Order of State Board Of Health.

The issue of \$35,000 worth of bonds to raise money partly to complete the new plant of the water works, and partly to meet certain immediate obligations in connection with the plant was voted by the city commission at the meeting held Thursday evening.

The issue of bonds was made necessary by the order of the State Board of Health demanding that the new water supply be put in operation as quickly as possible, and also because of the fact that the old water stations have not been sold as salvage, it is pointed out.

Of the \$35,000 worth of bonds, \$18,000 will be used to complete the new water station. When the city purchased the plants of the Xenia Water Company bonds in excess of the purchase price were issued, the extra amount, when added to the estimated salvage of the old plants, being set aside for the installation of a new supply and water station. The old plants have not been sold, which does not allow any income from this source, making it necessary to require other moneys to complete the plant in accordance with the demands of the State Health Board.

Passes Rules.

Shortly after the city acquired the water plants, the commission passed a system of rules and regulations, requiring that consumers pay the cost of service lines and of meters. As many of the customers are unable to pay these costs down, the expense is carried by the city, and the expense paid by the consumers on the installment plan. The money to carry this debt was appropriated from moneys which otherwise would have gone to the interest and sinking fund, it is explained, and the issuance of \$35,000 worth of bonds at this time is actually to create a working capital in order to make easy payments possible for the water consumers and to make payments to the interest and sinking fund board.

The bonds are issued for 30 years which creates a working capital for the water department for that length of time. In the meantime any profits the plant may make, may be applied to pay off the obligations to the interest and sinking fund. It is estimated by officials that the city will be able to pay back between \$10,000 and \$15,000 of this amount soon.

The State Industrial Commission has agreed to take the entire bond issue, which permits the city to secure the money at once, without the delay of advertising for bids.

The contract for wiring the new water plant for electricity was awarded to the Hornick Electrical Company at the meeting the bid being \$950. The only other bid was that of the W. B. Hill Electrical Company the bid being \$1,355.

JUDGE E. H. GARY DENIES STEEL CUTS

New York, Feb. 25.—Judge Elbert H. Gary, chairman of the board of directors of the U. S. Steel corporation, denied today that his corporation had called a meeting of salesmen or other representatives to discuss the advisability of slashing steel prices in order to bolster up business.

It was stated at the steel company's office here that the U. S. Steel corporation, which had not raised prices as high as independents during the war, had less difficulty in retaining its business than independents.

WILL HOLD REVIVAL MEETINGS IN XENIA

Dr. Riley, Manor Bybee and Staff Captain Gordon of the American Rescue Workers of Dayton, will be in this city for the rest of the week assisting the local branch of the American Rescue Workers in conducting a revival service the rest of the week at the local mission. This is the announcement today of Adjutant A. Main of the local organization.

WINN'S FRIENDS DONATE

Frankfort, Ky., Feb. 25.—Friends of Dr. H. C. Winnes, of Cincinnati former assistant State Veterinarian, who believe that he is innocent of the murder of Miss Laura Parsons, have collected \$713 from friends in Harlan. This fund will be turned over to him to be used in his second trial next April.

FAMOUS ALTAR BURNS

Rome, February 24.—Fire in the world famous church at Loreto, the Chiesa Della Casa Santa, destroyed the altar and the statue of the Virgin, says a dispatch from Loreto. The fire was caused by a short circuit.

IRISH COMMANDER WAS \$8.00 A WEEK CLERK IN LONDON

Dublin, Feb. 25.—Michael Collins, "Commander-in-Chief" of the Irish Republican army, who is being sought by a great British army in Ireland and a vast force of secret service agents, was an \$8 a week bank clerk in London before the war. Collins came to Ireland to join the British army when the Sinn Fein rebellion occurred at Dublin in 1916. He joined forces with the Irish republicans, however being an Irishman by birth and a republican by sentiment and rapidly rose in the councils of the Sinn Fein until he stands at the head of the military organization and really outranks DeValera in power and influence. British officials declare that, if they could capture Collins they believe the military campaign of the Sinn Feiners would soon collapse.

SERIOUS TURN IN IRISH FUSS NOW APPARENT

One of Biggest Battles In Warfare Breaks Out Friday.

CROWN IS BEATEN

Two Are Killed and at Least Six Wounded In Fighting.

Dublin, Feb. 25.—One of the biggest battles in the warfare which has been waging in Ireland was fought today near Ballyvourney when the crown forces were defeated by a heavy section of the Irish Republican army.

It is known that two members of the crown forces were killed and upwards of six wounded but the total casualties have not been checked up.

One of the dead was Major Grant commanding the Black and Tan police.

There were more than 300 Sinn Feiners in the band which attacked the military police.

Eight police lorries filled with black and tans were passing through the Coolies district west of Macroom, when they ran into a road that had been mined.

An attack was opened upon the lorries with the Sinn Feiners firing from behind barricades.

J. MASON PRUGH WILL REPRESENT DISTRICT BUREAU

Farm Bureau Federation Holds Convention On Thursday.

J. Mason Prugh, President of the Montgomery County Farm Bureau, was elected to represent this district on the board of directors of the Ohio Farm Bureau Federation, at the district Farm Bureau convention held here Thursday.

The convocation was held in the civil service commission chamber of the Federal building, and there were 30 delegates representing nine counties present. Farm Bureau men from Montgomery, Champagne, Fayette, Clinton, Greene, Ross, Highland, Pickaway and Madison counties were present at the convention.

The delegates discussed the organization of livestock companies, such as has been incorporated in this county, and questions bordering on its operation, including transportation and rates.

AUTO BANDITS MAKE BIG HAUL

Chicago, Feb. 25.—After fighting a pistol battle with L. E. Plomgren, cashier, four auto bandits today escaped with \$9,000 payroll money of the Western Newspaper Union. Plomgren was felled by a blow from the butt of a pistol but drew his gun and fired at the bandits until they vanished in their automobile. The robbers returned the fire but Plomgren was not wounded. Plomgren and an assistant had just drawn the money from a bank to be used in paying off the company's employees today.

EPIDEMIC BREAKS OUT

Vera Cruz, Feb. 25.—An epidemic of black smallpox has broken out on the isthmus of Tehuantepec and more than 100 deaths have occurred, according to a private telegram received here today.

Here is the new Cabinet as tentatively selected by President Warren G. Harding, Secretary of State, Charles Evans Hughes, of New York; Secretary of Treasury, Andrew W. Mellon, of Pennsylvania; Secretary of War, John W. Weeks, of Massachusetts; Postmaster General, Will H. Hays, of Indiana; Attorney General Harry M. Daugherty, of Ohio; Secretary of Navy, Edwin Denby, of Michigan; Secretary of Interior, Albert B. Fall, of New Mexico; Secretary of Agriculture, Henry C. Wallace, of Iowa; Secretary of Commerce, Herbert Hoover, of California and Secretary of Labor, James J. Davis of Pennsylvania.

Bandits Hold Up Mail Train in Illinois; Escape With Loot Valued at \$150,000

Three Men Armed With Rifles Halt Chicago and Alton Train Near Louisiana, Missouri, Force Engineer to Detach Mail Coach From Train, and Drive Across River Into Illinois Where Robbery Is Committed.

Roodhouse, Ill., Feb. 25.—Three men armed with rifles, held up the Chicago and Alton train, known as the "Hummer" running from Kansas City to Chicago shortly after midnight last night and escaped with a registered package and registered letters taken from the mail car. The amount of the loot is not known, but it is reported that the bandits obtained \$150,000 shipped by a Kansas City bank to one in Chicago.

The robbery occurred near East Quincy, Ill. But was not reported to officials until the train arrived here early today. An attempt to rob

the same train was made three weeks ago but the bandits were driven off by the crew.

According to Engineer Donahue, the bandits halted the train near Louisiana, Mo., by waving flags. As he slowed down, the three men leaped aboard the tender of the engine and crawled over the engine tender, covered Donahue and the fireman with their rifles and forced them to detach the mail coach and baggage car from the train.

The bandits then forced the engineer to drive a mile or more ahead which brought them across the Mississippi river to Sni, Ill. There two robbers guarded the train crew while the third entered the mail car and robbed it. The bandits then deserted the train and disappeared in the darkness.

Roodhouse, Ills., Feb. 25.—The 125,000 mail robbery of Chicago and Alton train No. 10 near here early today, had become a mere \$50 loss shortly before noon, according to postal inspectors. Credit was given messenger Myers, in charge of the baggage car for hiding money orders for large amounts when he heard the bandits order the door of the mail car opened.

WARFARE IN NEAR EAST TO SHORTLY BE ENDED, BELIEF

Make Definite Progress In Stopping Fighting In Turkey.

London, Feb. 25.—Definite progress towards ending the warfare which has been raging in Turkey for months was made by the near east conference today. The Ottoman delegates pledged Turkey to abide by the allied commission's decision regarding the future status of Turkish territory on condition that the Greek army in Anatolia is not moved nor is reinforced.

The central news circulated a dispatch this afternoon saying: "It is understood that the Turks have already given an affirmative reply to the proposals of the allies. The Greeks have notified the allied powers that they are not yet ready to make a binding reply."

BEGIN DRAFTING REPLY TO U. S. NOTE

Paris, Feb. 25.—The work of drafting a reply to the American mandate note was begun today. It is being put in shape by A. J. Balfour of Great Britain, former British foreign secretary. The reply is expected to be sent to Washington next week. Leon Bourgeois of France at today's session of the league of nations council presented a report on the disarmament resolution presented at the assembly meeting in Geneva.

JURY DISAGREES IN TRIAL, REPORT

Dayton, O., Feb. 25.—Out since 3:30 Thursday evening, a common pleas jury was dismissed this morning stung, sending the gun about battery and one for acquittal in the manslaughter case against William England, trick revolver exhibitor, charged with the death of Charles Miller, June 5, last. It was claimed Miller and England disagreed after a business transaction and that England started to shoot Miller tricking with a revolver. He did the "twirling" stunt, sending the gun about his fingers, when a bullet entered Miller's heart.

LABORERS SEIZE FRENCH FACTORY

Paris, Feb. 25.—Following refusal to reinstate 100 discharged workmen, about 1,000 laborers today seized a factory at Arrenteville which is partly owned by M. Loucheur, minister of Liberated regions in the Briand cabinet. The workmen hoisted the red flag over the plant. The police are watching the situation carefully, but so far no clashes have been reported.

HEADQUARTERS OF RUM RUNNERS IS RAIDED THURSDAY

Detroit, Feb. 25.—Ecorse, a down river village, reputed to be the largest rumrunners headquarters in the country, was "cleared up" by federal prohibition agents Thursday night. Liquor in great quantities and a score of prisoners were taken.

DEFENSE COUNSEL IN MATEWAN TRIAL ROUTED BY STATE

Counter-Barrage Of the Prosecution Wins a Point.

Mingo County Courtthouse, Williamson, W. Va., Feb. 25.—A solid battery of objections from the state sustained by Judge Robert D. Bailey, combated a furious cross-fire of questions hurled today at Tom Felts, on the witness stand in the trigger trial, by J. J. Coniff, for the defense.

The state's counter-barrage was successful. It silenced Coniff's fusillade.

Thus broke down an elaborate attempt to draw from the head of the Baldwin-Felts detective agency answers to these questions:

1—Is the coal operators association contributing to the prosecution of Sid Hatfield and his 18 co-defendants in the trial for the murder of Albert Felts, brother of Tom?

2—Were the evictions of union miners' families by the Felts detectives which led to the battle of Matewan a part of a fixed campaign to wreck the Mingo branch of the United Mine Workers of America and defeat the mine strike?

With bulldog tenacity Coniff pursued his questioning on these subjects, defying and trying to circumvent the steady counter-fire of the five attorneys specially engaged to prosecute the case.

REFUSES FORTUNE RATHER THAN JILT GIRL HE LOVES

Boston, Mass., Feb. 25.—A jolly sea rover is Arthur C. McLaughlin and he loves a charming Irish girl at this port. Thereby hangs this story.

McLaughlin said today he had received word from Edinburgh, Scotland, that his uncle John McLaughlin, is dead and has left him 300,000 pounds (\$1,158,000). But—before he gets the money he must give up his sea roving, forget his Irish beauty here, and settle down in Scotland as the husband of a "bonnie Scotch lassie," the choice of his uncle.

"Nothing doing," said McLaughlin. "I love the sea and I love my pretty Irish colleen too well to give them up for money. There's something better than money in the world, and that's happiness. I'd rather live in a humble cottage with the girl I love than in a castle with a woman I didn't care for."

WOULD PROVIDE ENFORCEMENT OF TAXATION LAWS

Measures are Introduced To Enforce Uniform Rule.

CHOICE IS CONFIRMED

Senate Passes Favorably On Selection of Dry Commissioners.

Columbus, Feb. 25.—The senate has confirmed Governor Davis' appointment of Police Judge Don S. Parker, Ashtabula, Republican, as Ohio's first state prohibition enforcement commissioner.

Measures designed to provide for enforcement of the uniform rule of taxation have been introduced in the house as follows: By Miller, of Coshocton, giving officials the right to confiscate 50 percent of all property withheld from taxation and fixing the status of intangible property so that money invested outside the state by Ohio residents shall be taxable in the county in which the owner resides; by Robinson, of Lawrence, providing a 50 percent penalty for failure to list personal property and giving county auditors inquisitorial powers; by Cope, of Columbiana, giving tax officials power to inquire into bank deposits.

A bill authorizing liability insurance companies to participate in workmen's compensation insurance in Ohio has been introduced by Rep. Burns of Washington county. If enacted into law, the measure would restore the status which prevailed before the bill initiated by Ohio Federation of Labor was passed in 1917.

Senator Cornell, Wayne county, introduced a resolution proposing adoption of an amendment to the state constitution permitting use of voting machines.

With only seven opposing votes the senate adopted the Bender resolution providing for a legislative state wide probe of the natural gas situation including production and methods of distribution. The charge is made that much gas is wasted and that companies are making unreasonable profits. The attorney general is to aid in the probe.

Although the senate has recessed until March 8, due to President elect Harding's inauguration the house recesses until Tuesday for a brief session to permit the introduction of the governor's bill reorganizing state department. Then it will recess until March 7.

ACCEPTANCE BY HOOVER OF JOB BIG SURPRISE

Announcement Comes Out Of Clear Sky To Harding Party.

SILENT ON "TERMS"

Presumed That Next President Consented To Proposals.

St. Augustine, Fla., Feb. 25.—President-elect Harding today confirmed reports of the appointment of Herbert Hoover of California as secretary of commerce and Henry Wallace of Iowa as secretary of agriculture.

St. Augustine, Fla., Feb. 25.—Announcement by Herbert Hoover in New York, that he had accepted the post of secretary of commerce in the Harding cabinet came as a distinct surprise to the members of President-elect Harding's party here. Mr. Harding last night and early today denied himself to inquiries on the subject. It was indicated that a statement might be forthcoming later.

While it has been generally expected all along that the former food administrator would be a member of the cabinet, the circumstances which surrounded his entrance were unusual. As late as six p. m. yesterday President-elect Harding told questioners that as yet there had been no definite tender of the commerce post to Mr. Hoover and he declined to comment on the "terms" which Mr. Hoover laid down as preliminary to his taking up the portfolio.

It is to be presumed the president-elect gave his consent to Hoover's continuing his European relief work as well as to his plans for reorganizing the department of commerce.

Today the president-elect planned to leave St. Augustine shortly before noon and motor to Jacksonville where he will spend the rest of the day and the evening. He will be the guest of Jacksonville business men. The ex-commissioner of thirty-second degree masonry, motoring back to St. Augustine tonight.

WANT CENSORSHIP ON PICTURE SHOWS GIVEN IN XENIA

Committee Waits On City Commission Thursday Night.

An appeal to the city commissioners for a city board of censors, to control the showing of motion pictures here, was made by a lay committee to the city governing body Thursday night.

Heating the committee which called on the city commission were Rev. E. W. Middletown, of the First Reformed Church, Rev. C. P. Prossitt of the Second United Presbyterian Church, Rev. Pimm of the Friends Church, Mrs. M. O. Snodgrass, Mrs. Mary L. Collins and Mrs. Walter L. Dean.

Speakers for the committee stated to the commissioners that the motion pictures are a source of causing much crime, especially among children, who witness the picture shows, and are greatly influenced by the pictures. They asked that the commissioners appoint such a board of censorship to control the showing of films in the local theaters. City Manager, Kenyon Riddle, was appointed a committee of one to confer further with the lay committee.

APPROPRIATION BILLS JAMMED IN HOUSE

Washington, Feb. 25.—House leaders today were pessimistic for the first time over chances of passage at the present session of congress of all the appropriation bills.

The Senate committee have added \$100,000,000 to the navy bill as it passed the house, and about \$12,000,000 to the army bill besides raising the permissible enlisted strength of the army from 150,000 as fixed by the house to 175,000.

The house is determined to enforce its policy of economy. The navy and army bills as they come from the senate probably will be rejected by the house and the fight against the huge increases in appropriations made by the senate will be fought out in conference.

MEXICAN RAILWAYS CRIPPLED BY STRIKE

Mexico City, Feb. 25.—Railroad traffic is seriously crippled today as a result of the general strike. The government is taking a firm stand and President Obregon in reply to the "final demand" of the railway union for recognition declared he had "said his last word" upon the subject. In connection with the labor troubles there are reports of further revolutionary troubles in Yucatan.

GREECE WILL NOT ACCEPT TURK TERMS

London, Feb. 25.—Premier Kalligeropoulos, of Greece, head of the Greek delegation attending the near east conference today declared that Greece will not accept the terms proposed by the Turks for a settlement of the Ottoman problem. A member of the Constantinople or anti-nationalist delegation, declared that this government is disposed to accept a compromise plan of the allies "if it is sufficiently modified."

SCHOOL STAGES LEVEL PROGRAM

Goes school staged a clever play as a social affair for the people of Goes and vicinity on evening.

Rooms were decorated in the colors, and large framed pictures of Lincoln and Washington were on the wall above the platform. The system furnished abundant light for the occasion.

The program displayed careful work of the pupils, and consisted of songs, recitations, trilogies, The Snow Ball Drill; playlet, "Patty Saves the Day"; exercise, "George's Presence of Mind"; the Grammar Room; and dramatization of "The Old Man that Lived in the Shoe," and by little Margaret Heeg of primary room won special praise for the large audience.

W. B. Bryson delighted the ice with a brief address on "Unity Welfare," and Supt. S. address on "The Present Outlook" was well received.

Elizabeth Ray, teacher of the primary room, acted as chairman. Miss Louise Bone, teacher of the primary room, presided at the piano.

GENERAL SERVICES HELD THURSDAY

General services for Mrs. Frank W. were held at the late home in Miller Avenue, Thursday afternoon at 2 o'clock, in charge of G. A. Scott, of the First Methodist church. Pallbearers were six members of the two lodges of which Mrs. Considine was member. Mrs. George Smith, Mrs. A. G. Griesinger and Mrs. A. G. Griesinger represented the Royal Neighbors. Mrs. Myrtle Van Pelt, Mrs. R. Shumaker and Mrs. John R. Maccabee lodge. Interment was made at Woodland cemetery.

DEATH REPORTS TRAGEDY

Death by drowning, was the find of coroner E. T. Kimmell, after investigating the death of Miss Davis, Cincinnati, who lost life when an automobile car, Cincinnati people plunged in a canal south of here, Tuesday. Miss Davis' body is held at Asburg for relatives.

ACTIVITIES OF GREENE COUNTY AUTOMOBILE CLUB DISCUSSED AT BANQUET THURSDAY

Almost 100 hundred members of the Greene County Automobile Club and their friends attended the meeting and banquet of the organization held at the Chamber of Commerce Thursday evening.

Although disappointed by the inability of a number of the invited speakers to be present, the program proved interesting and marked a big step forward in the progress of the Club. The banquet was served by Mr. Kany, honorary member of the club, following devotions offered by Rev. G. A. Scott, pastor of the first M. E. Church, and a colored orchestra kept things lively during the meal.

Dr. A. C. Messenger, president of the club acted as toastmaster for the evening, and called on a number of speakers in prompt. John W. Prugh first speaker of the evening expressed himself solidly as a booster for the new club. "I don't think we need any speakers to convince us that we need an automobile club," said Mr. Prugh. Mr. Prugh said that there had always been too much difference between the country people and city people, and that the organization of an automobile club, in which both sides

are banded together in a common interest, will do much to alleviate this feeling. "If we could get together as a body of people and eliminate that word 'greed,' Greene county would be known as the model County of the world and Xenia as its model city," he said.

S. M. McKay, chairman of the committee on signs and road routing, made a report of the activities of his committee. Frank Fisher as chairman of the committee on securing a reward for the arrest and conviction of auto thieves and as chairman of the membership committee, gave two reports concerning the activities of his committees.

Ernest Beatty, chairman of the committee on quarters, reported, and Secretary F. J. Slackford, speaking for the emblem committee, reported that the emblems are now being constructed. H. C. Autlman, county Superintendent of Schools, spoke of the relation of the automobile to the rural school problem. He said that there was a tendency for country people to move to the city now, and that one of the big reasons for this is the question of better schools. The cen-

tralized school solves this question, explained Superintendent Autlman, but with centralized schools it is necessary to have better roads, and this is one of the things for which the automobile club stands for. The salvation of the schools is in the hands of men such as we see here tonight," he said. "It is a problem for your Chamber of Commerce, the Farm Bureau and the Granges."

R. G. George of Jamestown, A. Z. Smith of Cedarville, Ed. Ballard, of near Xenia, W. H. Donges, and F. A. Jackson solicitor of the club, were among other speakers. Dr. R. H. Grube, explained the new pure water supply of Xenia and proposed a toast to "a good, pure, abundant water supply for all automobile owners."

Rev. G. A. Scott, pastor of the First M. E. Church, boosted the organization in a brief talk in which he responded to the call of the toastmaster. Practically everyone present volunteered to accompany a booster trip to the towns of the county in the interest of interesting the membership of the club, and this plan will probably be followed.

FIERY, ITCHY SKIN QUICKLY SOOTHED BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist. The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up. A small jar of Mentho-Sulphur may be had at any good drug store.

Buick Valve In Head Motor Cars

Today, as never before, a motor car is purchased as a dividend earning investment—dividends of utility, service, economy and resale value.

The twenty years performance record of Buick Cars and the power and reliability of the famed Buick Valve-In-Head motor are thoroughly familiar to the public and explain, in a measure why Buick is so generally recognized as a sound investment.

The low stream-lines of the 1921 Models give these cars an appearance of grace and dignity. A greater roominess of tonneau and space provided adds motoring comfort. Both elements are well expressed in the new 1921 Models.

When you buy a Buick car you are assured of service wherever you go, as there are Buick Service Stations in any City.

Buick owners will get better service by going where they see the Buick sign.

EASTERN STAR LODGE CELEBRATES ANNIVERSARY.

An interesting program was given by the members of the Eastern Star Lodge, in celebration of the fourteenth anniversary of the lodge's foundation, at the Masonic Hall, Wednesday evening.

The program of the evening was in charge of Mrs. Fred Fisher with other members taking part. The first number of the program was given by a clever method, and was in charge of Mrs. Howard Norris who read the history of the chapter during the entire fourteen years. The history was illustrated by members of the chapter who represented officers of the lodge, being shown in the form of a picture. Officers for each of the preceding years were shown, and a short talk was given by Mrs. Norris upon the deceased members.

An especially striking scene of the program was given in which Mrs. Frank Shelley took the leading part. The title of the small sketch was "A Garden of Old Fashioned Roses." Taking part in the sketch were Misses Gladys Shadrach, Edna Wolf, Margaret Regan, Martha Wilson, Ruth Washburn and Doris Meahl.

The next number of the program were two vocal numbers given by Miss Bertha Gardner and Mrs. Fred Coy.

Following the program a social time was enjoyed by the guests, games and contests being arranged by the members. The members and their families totaled a list of 150 guests.

The members of the office force of the Hoover and Allison Company were entertained at a theatre party at the Bijou Theatre, Wednesday evening by Ray L. John. Those present were, Mr. and Mrs. G. E. Hudson, Mr. and Mrs. P. B. Yockey, Mr. and Mrs. H. L. Slet, Mr. and Mrs. Crawford Craig, Mr. and Mrs. A. H. Finley, Mr. and Mrs. James Wilson, Mr. and Mrs. C. E. Haver, Mr. and Mrs. Erskine Winters, Mr. and Mrs. Grover Crawford, Miss Edith Robinson, Miss Edith Marshall, Miss Faye Ledbetter, Miss Edith Need, Miss Bertha McCarty, Miss Gladys Shadrach, Miss Isabel Owens, Miss Wella Shipley, Miss Leona Keller, L. F. Clark, Arthur Bales, H. J. Reinhardt, Leigh Nisbet and R. L. John.

XENIA GIRL PLAYS AT DAYTON RECITAL

Miss Juanita Rankin, daughter of Mr. and Mrs. C. O. Rankin of East Main Street, will be the only local pianist to be on the program, at the first open meeting of the Junior Music Club, which is to be held at the Engineer's Club, in Dayton Friday evening. Miss Rankin will give several numbers including Chapin's "Nocturne," Raff's "La Filleuse," and McDowell's "Etude Concert." Several Dayton artists will be on the program, who are students of different Dayton instructors. Miss Rankin has been for the past two years a student of Henry A. Ditzel, of Dayton.

ENTERTAIN FRIENDS ON ANNIVERSARY

Honoring their seventh wedding anniversary Mr. and Mrs. Frank Fletcher entertained a company of relatives at their home on California street and Cincinnati avenue, Monday evening at a delicious two course dinner. The table was centered with a huge bouquet of roses and carnations with fern.

The guests were, the Misses Nelle Fletcher, Margaret Fletcher, Edna Fletcher, May Fletcher, Virginia Fletcher, Miss Katherine McCurran, Mr. and Mrs. Leo Murray, Miss Gusie Galloway, Miss Edna Grottenick, and Luke Fletcher, Emmet Gilman, Lawrence Whittington, Thomas Gurney and Joseph Hendrickson.

WOMEN'S RELIEF CORPS MEETS THURSDAY

Members of the Women's Relief Corps held their meeting Thursday afternoon in the G. A. R. hall in the basement of the court house.

A special patriotic program was rendered. Mrs. Owen Tiffany gave a reading. Mrs. Jasper Denham a piano solo. Mrs. Laycock sang, accompanied by Mrs. Edward Wilkins at the piano, and readings were given by Mrs. Lynn, and Mrs. Henry Norckauer. Another piano solo by Mrs. Denham and a reading by Mrs. M. A. Sims, concluded the program.

OBITUARY

James William Roberts, the subject of this notice, was born in Fayette County, Ohio, May 16, 1863, and died at Xenia, Ohio, November 12, 1920, age 57 years, 6 months and 6 days.

The deceased was a gentleman who was noted in the sphere in which he moved, as one possessing many rare and beautiful qualities of mind and heart. His kind and affectionate manners with no love for display, made him an agreeable and ever welcome guest. As a friend and neighbor he was generous and kind. Always a liberal giver to every good and worthy cause.

The deceased was one of six children of John and Susanna Roberts, of which only two survive, John Roberts and Mrs. Mary Hughes.

On the 25th day of November, 1875, he was united in marriage to Phoebe Jane Sites. To this union were born five children, two sons and three daughters, one son, William Clarence having died in early manhood.

Those left to mourn the loss of a dear father, are, Cammie E. Roberts of London, Ohio, Iva Finn of Dayton, Ohio, Grace Webb of Xenia, Ohio, and Minnie Spahr of near Jamestown. These with the wife, four children and five grandchildren, and a large circle of friends and relatives are left to deeply and sadly mourn their loss. The inevitable hand of time is constantly gathering the sheaves of human lives as toll to King Death. While the deceased had lived his allotted time, he had a few years of life expectancy before him, but for the untimely accident that caused his death. He was a member of the Brotherhood class of the Friends Church, and also of the Junior and K. of P. Lodge and of the Jamestown Quoit Club.

He has gone from his dear ones, his children, his wife. Whom he willingly toiled for, and loved as his life. Oh, God! how mysterious and how strange are Thy ways. To take from us this loved one, in the best of his days.

AN OBITUARY OF A LOST JEWEL

Mrs. Flora Considine, deceased, was born in Terre Haute, Indiana, May 13, 1882, and died February 21, 1921, age 38 years, 9 months and 8 days. Her marriage to Mr. Frank Considine taking place October, 1899. To this union were born five children. Eugenia, Margaret, Richard, Francis and Kenneth. She is also survived by her parents, Mr. and Mrs. John Baker, two sisters and three brothers. Edna May, Lizzie, Harry, Henry and Sherman, who deeply mourn their loss.

A precious one from us has gone, A voice we loved has stilled.

A place is vacant in our home Which never can be filled, God in His wisdom has recalled Thy boonie His love hath given Although thy body molders here, Thy soul is safe in Heaven.

CHARTER PRESENTED TO XENIA ROTARY CLUB AT BANQUET

The newly organized Xenia Rotary Club was formally presented with its charter, at the anniversary celebration of the Dayton Rotary Club, held in the Rike-Kumler dining room Thursday night. W. E. Harbottle, secretary of the Dayton Club made the presentation before about 300 Rotarians and their wives, who were on hand to observe the 16th anniversary of the establishment of Rotary.

C. L. Darlington, president of the local club responded to the occasion with a short speech. About thirty Xenians, members of the local club and their wives were present as the guests of the Dayton organization.

They were introduced to the other Rotarians present as the newest club in the state, which is No. 828.

The banquet Thursday night took the place of the regular Friday noon meeting of the Xenia Club.

HORSES RUN AWAY; AUTO IS DAMAGED

Becoming frightened at a small building that was being loaded upon the wagon they were hitched to, a team of horses belonging to L. B. Luttrell, dashed away from the residence of John Huston on North Devoe Street and ran several blocks before their flight ended in a collision with the Essex touring car belonging to John A. Hamer of the upper Bellbrook pike. Friday morning at the corner of Detroit and Market Streets. No one was injured in the accident. The back curtain of the machine was torn and the rear of the body crushed.

COUNTY AGENT WILL RECEIVE MARKETS

County Agent Ford S. Prince of the Greene County Farm Bureau has made arrangements to receive full market reports at his office in the Federal building every morning.

Three of the reports will be received from Chicago, one from Pittsburgh, one from Cincinnati and one from Dayton. The new service will start March 1, and after that date information regarding the markets will be given to members and people interested by telephone.

PATRIOTIC TALKS GIVEN IN SCHOOLS OF CITY THIS WEEK

Patriotic talks and instructions were given this week in the Xenia schools, by a committee from the Women's Relief Corps, which visited the different class rooms.

The Committee was headed by Mrs. Oliver Whitson, president of the Corps and Mrs. C. W. Linkhart patriotic instructor and included Mrs. William Ellsbury, Mrs. Howard Norris, and Mrs. D. B. Watt. At Central High School nine flags were left with Principal Harper Pender for distribution in the different rooms, and flags were distributed to all the grades, 16 flags being given away in all.

Mrs. Linkhart made an address at the meetings. Mrs. Ellsbury gave a reading and the teachers and scholars responded with a salute.

Jones' accident taught me my lesson

"I was there when they brought him home—weeks later I saw the result of his thoughtlessness—savings gone, bills piling up, nothing coming in, his wife sick with worry and trying to find work to make ends meet. UNITED STATES HAS THE GREATEST SALT DEPOSIT IN THE WORLD.

Although salt is one of the most common minerals, it is the most used in our daily life. The annual production in the United States is somewhat more than 7,000,000 tons, and the aggregate production in foreign countries is more than 10,000,000 a year. Some of this salt is from the sea, much of it comes from surface deposits in basins of lakes or former seas, and a large proportion comes from beds in various geologic formations at greater or less distances below the surface.

It has long been known that a thick salt bed underlies part of Kansas, the source of salt produced at Hutchinson and its, but its extent was unknown. Many holes drilled for oil and other purposes during the past few years have shown that this salt extends continuously across western Oklahoma, northern Texas, and far into eastern New Mexico. The limits are yet fully determined, but in general the region underlain by salt is fully 650 miles long from north to south and 150 to 200 miles wide from east to west—a total area of about 100,000 square miles.

The thickness and succession of the beds is variable, but 700 feet or more of pure salt are known in some holes and in many places the aggregate is more than 300 feet. It is by far the largest known deposit in the world. The salt does not come to the surface, but lies mostly from 500 to 1000 feet below. In Kansas the salt underlies all the south central counties and may extend as far north as the Nebraska line. Its thickness is about 200 feet at Anthony and Kingman and more than 200 feet in an area of large extent. In Kansas it lies from 200 to 1200 feet below the surface.

In Oklahoma the great salt succession appears to underlie Harper, Woods, Ellis, Woodward, Roger, Mills and Becker counties, and a thickness of 580 feet is reported in some places. Many borings in the Panhandle of Texas have proved 284 feet of pure salt was penetrated and near Roswell the thickness is 520 feet, while other holes show a thickness of 200 feet or more. The southwestern limit of the deposit is not yet known; it may extend in considerable thickness under the Pecos Valley some distance into Texas.

So far the only utilization has been in the Lyons-Hutchinson area in Kansas, where high-grade salt has been mined in shafts obtained by evaporating brine pumped from bore holes. The amount of salt in the region above described, assuming an average thickness of 200 feet under an area of 100 square miles, has been estimated by the U. S. Geological Survey as about 30,000 billion tons, or enough to supply the world for two million years at the present rate of consumption.

OUR NEW SECRETARY OF STATE.

Over and above the entire suitability of Mr. Hughes' selection as the most important place in the cabinet, there will be general approval of Mr. Harding's assurance that in the administration of the foreign affairs of the nation the new secretary of state will be something more than the mere mouthpiece for his chief. In the beginning, Mr. Harding said, "the secretary of state speak for the State Department." The significance of that remark lies in its application to recent history and to the peculiar position of the officials who have held that high post during the administration now nearing its end. It is not to be inferred that the next President has no intention of sharing the responsibilities of the adjustment of the complex and troublesome foreign relations of the United States, but his statement clearly means that the secretary of state will be the secretary in fact and not merely in name and that his true judgment and his knowledge will be brought to bear fully on the solution of all the problems confronting his department.

The task before the new secretary is not a simple or easy one and the spirit in which Mr. Hughes has undertaken the burden should serve as an example for others to whom the service may come. That it involves a sacrifice is certain, looking upon the summons as an imperative duty Mr. Hughes has undertaken it in a spirit of patriotism and self-abnegation that is wholly admirable.

THE DEMOCRATS HAVE PLENTY OF TIME.

The result of the movement in the Democratic national committee for a party reorganization seems to be, so far as any result has been ascertained, that there will be no reorganization. Not yet, at least. The decision probably is as wise as any decision of a party is likely to be. There seems to be no special reason for hurry, as the Democrats haven't any appointment to keep.

If there is anything that can be done for the Democrats, it probably can do it better than any other agency. And for the time being the Democrats have plenty of time. It's the thing that hasn't been taken away from them. There is some question, too, whether in view of the constitutional function of the Democratic party it is necessary that it be reorganized. It is well known that the Democrats win elections because they are organized. They win because Republicans are disorganized.

So the executive committee will take no steps to hurry the process of time, the Democrats' best friend. Time, hope and a money for overhead expenses is all the Democrats will need for the next couple of years anyway. After that they will need candidates in order to make the congressional elections legal, there is no immediate need of notifying these gentlemen of what is coming to them.

"FIRST CATCH YOUR RABBIT"

Mr. Perry Comford has been offered a position as pitcher on the Milwaukee baseball team for the coming season. Perry is one of the crack pitchers of the city and would make a good one for the club but he has not yet decided to accept the position.

Horace L. Pierce, the contractor for the Xenia work house is here superintending the placing of the engine and machinery which is being put in the workshop at that institution preparatory to making brooms and mops. The work house will be soon lighted with acetylene gas, arrangements having been made for putting in a forty light machine.

The Miami Telephone Com-

pany having leased the second story of the Crandall building, it is necessary for the Miami Grain Company to seek new quarters and the firm has arranged to locate in the Allen block, taking the rooms which are now occupied by Mr. Watt Frame.

A tour of inspection of Orient Hill has been made by the members of the Xenia school board and in an informal way the question for a site for the new school building to be erected in that portion of the city was discussed. The new building will consist of two rooms with basement and the wall will be of sufficient strength to permit the addition of two other rooms should it become necessary by the future growth of the city.

JAMESTOWN LEGION HAS DRAMATIC CLUB

A local talent show for the benefit of Wilbur H. Thomas Post of the American Legion at Jamestown, will be given the second week after Easter it is announced by Legion officers.

For the purpose of staging amateur productions an American Legion Dramatic Club has been organized by the girls of Jamestown who are cooperating with the Legion in the matter. Miss Marjorie Galvin, is chairman of the Club. Miss Cleo Zener, vice chairman, Miss Hazel Walker, secretary and Miss Clara Beal, treasurer. A publicity committee consists of Mrs. Joseph Hayalip, Miss Catherine Shigley and Miss Arthella Lierance.

This organization will sponsor the home talent production to be given after the Lenten season is over.

OLD FOLKS MADE NEW

"It is now five months since I took a course of your medicine for gas and stomach trouble and I am feeling entirely well. My friends all tell me I am looking twenty years younger and I certainly feel as they say. I am recommending May's Wonderful Remedy to all ailing with stomach and liver trouble." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and alleviates the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. All druggists.

BEAUTY CHATS

POOR HUMANITY.
Sometimes I think the human race has very little fun; less pleasure than the brutes that chase and gambol in the sun. I'd like to be a bob-o-link and circle in the air; for little birds like this, I think, know naught of human care. They bear no burden on their backs, no weary load that kills; they do not pay an income tax, or face big monthly bills. I'd like to be a kangaroo upon a desert plain, and I would hop a mile or two, and then hop back again. Sometimes sad thoughts like these I think, when life has made me hot; but some one shoots the bob-o-link, and I remain unshot. The lower animals I view, and think them satisfied; but some one slays the kangaroo that he may tan its hide. "I'd like to be a crocodile," in peevish mood I wail, "and I would swim the storied Nile and smash things with my tail." But crocodiles know little mirth, and much of woe they've known; for every critter on this earth has troubles of its own. But cats and wolves and grizzly bears and cows and birds and snakes don't publish forth their daily cares, their little pains and aches. They take existence as it comes, the bitter with the sweet, and, being short of muffled drums, they look for things to eat.

BODY SENT TO TOLEDO

Toledo, O., Feb. 25.—The body of Ewing Love, 32 years old, formerly a railway mail clerk at Fremont O., was sent there following action of yesterday, when he ended his life in a hotel room here. He left a note saying he was not deranged mentally but that "life was not worth living." He was a war veteran and recently resigned his position after being seduced.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

BEAVER CADETS WIND UP GOOD SEASON WITH VICTORY THURSDAY

Winding up their official season the Beaver Cadets of Alpha, defeated the Dayton Buckeyes in a closely fought and interesting contest at the K. of P. Hall in Alpha Thursday night, 42-38.

The Buckeyes were no mean competitors as they soon evidenced on the floor, and they gave the Brill brothers outfit a real battle as their season swan song. "Yank" Stephens, was the individual star of the Cadets' attack, making 24 out of the 42 points, with nine field goals and six free shots, while Homer Brill was next high man with five fielders.

A. Clayton, playing center for the visitors, was six feet, six inches tall, and he towered above Kitt of the Cadets. His size, more than anything else, enabled him to make six baskets, tying Birschberger, with a like number.

The Cadets concluded a successful court season with the victory Thursday night. In sixteen starts the team has won 13 games and had been defeated three times once by the Shamrocks and twice in this city. The lineup and summary:

Cadets (42) Buckeyes (38)
Homer Brill Hirschberg
Stephens Quinn
Kitt A. Clayton
Harry Brill Ryan
S. Brill Middleton
Field goals: Stephens 9, Homer Brill 5, Kitt 3, Harry Brill 1, Hirschberg 6, Quinn 4, Clayton 6, Middleton 1. Foul goals: Stephens 6, Hirschberg 1, Quinn 4.

MUSKINGUM COLLEGE GRIDIRON SCHEDULE UNUSUALLY STRONG

Spring football training will be instituted for the first time at Muskingum College, New Concord, this year, in preparation for one of the hardest schedules ever arranged for a Muskingum team.

Twelve letter men are included among the number of prospects who will answer the call for the first spring work out. The football schedule as announced is unusually well balanced, starting out light and gradually working up to some serious grid conflicts that occupy the late later in the season.

Among some of the gridiron combinations to be faced by Coach Henderson's moleskin artists next fall are three Ohio Conference teams, Kenyon, Wittenberg and

Akron. Wittenberg is rated as the strongest grid combination in the Conference, being Wooster for state honors last fall while Akron was also undefeated in the Conference, tying one game. The game with Earlham College will be Muskingum's initial appearance in Western football.

The schedule prepared is as follows:

September 24.—Wilmington College at home.
October 1.—Defiance College at home.
October 8.—Kenyon College at Gambier.
October 15.—Wittenberg at Springfield.
October 22.—Rio Grande at home.
October 27.—Dayton at home.
November 5.—Akron at Akron.
November 12.—Earlham at Richmond.
November 19.—Baldwin-Wallace at home.

LOCAL LAD LOCATES LOOP LIVELY

"Bob" Moore, Xenia boy, and a Junior at Muskingum College, New Concord, is one big reason why the Muskingum basketball team is establishing a record on the court this season.

Muskingum has won 12 of the 14 games played this season, losing only to Marietta, 37-14 and Grove City, 34-27, and defeating such teams as Pittsburg Seminary 19-17, Marshall College 34-14; Toledo University, 44-13; Bethany 27-19; Duquesne University 26-20; Baldwin-Wallace 35 to 12 and Capital City University of Columbus 37-31.

Muskingum has scored 462 points to 289 garnered by the opponents, and of these Moore has contributed 114 points from field goals alone, having tossed 57 so far this season. Bell, a Freshman center, is his nearest competitor with 34 field goals, which shows that the local boy is tossing them in with as much regularity at New Concord as he did when Captain of the Central High team here a few years ago.

Only two players, Boyd, a forward and Brown a guard, both Seniors, will be lost to the Muskingum team through graduation this year, and the local lad will be among those back at school available for the squad next season.

YELLOW SPRINGS WINS SECOND ROUND OF MEET AND CHANCE TO PLAY CAESARCREEK

The breaks were with Yellow Springs High School basketball team Thursday night, the up-county crew nosing out Port William by one point in the second round of the county high school basketball tournament being conducted by the Central High School Athletic Association, and thus the right to meet Caesarcreek Friday night in the finals.

Port William, unable to shoot from the free line, and a little over anxious, played better basketball than did the Yellow Springs lads, but the latter quintet was capable of making every point count, the final score being 12-11. Fouls won for the Yellow Springs lads. They only secured four field goals, to five of the Clinton aggregation, but they tossed four fouls to one registered by the Port combination.

Port William won the right to stay in the game by eliminating Bowersville in the opening game by the score of 28-10. Yellow Springs went into the semi-final, through a defeat of Jamestown 17-10. Another large crowd witnessed the second round of the tournament, which will conclude Friday night with the championship game between Yellow Springs and Caesarcreek for the championship. Central High has challenged the winner of this game for a contest to be played immediately afterward which however will have no bearing on the tournament standing.

The Port Williams-Bowersville game, lineup and summary:

The Port Williams-Bowersville H. B. Speer Ream Shaw Thompson Woods Stewart H. E. Speer Kelso Substitutions: McMillan for H. B. Speer, Beam for H. E. Speer. Field goals: H. B. SERIOUS SHORTAGE OF STUDENTS SEEN IN MEDICAL COLLEGES

Cambridge, Mass., Feb. 24.—There is serious shortage of young men in the medical sciences today in the United States, and the laboratory branches of medicine will suffer unless a change takes place in the current of young men taking up medical careers, according to Dean David L. Edsall, of the Harvard Medical School.

Dean Edsall states that the clinical branches of medicine are getting such a large proportion of the young men in the profession that in the laboratory branches "there is really a disturbing paucity of capable and well-trained instructors, and even of seniors," and his fears that it things go on as at present the laboratory branches "will suffer seriously in both their instructional and investigative activities, and perhaps go through a period of decided deterioration."

"Most men who enter medicine," continued Dean Edsall, "do so with a predominating interest in its human aspects, a moderate number with the human and scientific somewhat equally mingled, but with the scientific often rather predominating while the number with whom the scientific interests is wholly in control is small. The latter do not suffice, and the middle group has supplied most of the younger workers in the medical sciences."

To meet the need Dean Edsall reports that the Harvard Medical School faculty has recently decided to offer the degree of Doctor of Medical Sciences, hoping that men who are interested in the scientific side of medicine will try for this degree. He also urges that the colleges and especially colleges instructors, shall point out to students the possibility of service to science which is to be found in the field of medicine.

Pepto-Mangan Makes Rich Red Blood and Lifts You Out of Bad-Health Ruts

There are days when you feel downright sick. You think you couldn't feel any worse. Yet, as far as you know there's nothing the matter with you. From the time you get up in the morning till you go to bed at night you are tired. You feel as though you'd like to sit down and do nothing. You look tired and pale and haggard. You get careless about your dress.

No wonder! Your blood is all clogged up with poison. Your power of resistance is at a low ebb. Your blood needs food. It needs the help that the vitalizing tonic, Pepto-Mangan, will give it. Instead of feeling exhausted and tired out for months, you will soon pick right up and feel well and strong again. And with good red blood you are able to fight off ailments.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is prepared in both liquid and tablet form, and you can take one or the other and receive the same benefits.

Sold at all drug stores. But be sure you get the genuine Pepto-Mangan—"Gude's." Ask for it by the full name and be sure the full name "Gude's Pepto-Mangan" is on the package. Adv.

FIRE DAMAGES HOME ON EAST MAIN STREET

Fire at the home of Mrs. Bertha Williams, on East Main street, caused considerable damage at noon Thursday.

There was no one in the house Thursday, and passers-by noticed smoke at 9:30 but did not notify the department. At 11:30 o'clock the smoke was so thick, that a pedestrian turned in the alarm, and when the fire department answered the call, two rooms of the frame cottage were on fire. The blaze is supposed to have started from a defective flue, and damage to the rooms and contents will be serious.

FINANCIAL DRIVE FOR NEW BUILDINGS ON AT WILBERFORCE

A campaign to raise \$100,000 for the erection of two new dormitories for boys and girls, was the outgrowth of the annual Founder's Day exercises celebrated at Wilberforce University Thursday.

President J. A. Gregg of Wilberforce said this morning that there are now 1260 students registered at Wilberforce, which is 550 more students than ever before enrolled in the school. Besides this large number 500 more students had to be turned away because they could not be given accommodations at the school.

Bishop J. H. Jones, of Wilberforce, who is head of the Third Episcopal district of the A. M. E. Church was able to report subscriptions amounting to \$8,360.80 from his churches and from their students, the latter raising the quotas according to groups. The individual student subscription amounted to \$1,487.84. These are not the final figures and it is not thought that the final results of the drive will be known complete until the middle of March.

The amount thus subscribed, will be combined with \$12,000 which the University now has on hand, making over \$20,000 which will be used as a nucleus in the campaign to raise the money for the new dormitories.

Bishop B. F. Lee of Wilberforce who returned from a visit in the South to be present at the Founder's Day celebration delivered an address Thursday morning and he was followed by Dr. Thomas J. Jackson who bears the distinction of being a member of the first graduating class of Wilberforce in the year of 1870.

Rev. E. A. Clark and Rev. J. O. Haycock both of Columbus, spoke at the afternoon program of the celebration. Rev. Clark giving an interesting account of the history of the college, beginning with its foundation Aug. 30, 1856 by Bishop Daniel Payne. President J. A. Gregg of the University presided at the meetings during the day.

In the basketball game which was played in the evening, Wilberforce University lost to West Virginia Institute 38-18. Following the basketball game a musical program was given in Galloway Hall and students took part in the annual rally.

More Strength To Nerves In Every Grain of Phosphate

Organic phosphate is a necessary constituent of every cell in your body, but especially of those that go to make up nerve and brain substance.

Lack of a sufficient quantity of organic phosphate known to pharmacists as Bitro-Phosphate means that you are nervous, easily tired, have no ambition and are mentally fatigued.

To correct this condition and to rebuild your exhausted nerves, so that strength and health will be yours, ask Sayre & Hemphill for a supply of Bitro-Phosphate and take two five grain tablets with each meal.

GOOD PUDDINGS.

Prune Betty—Cover bottom of a buttered baking dish with coarse bread crumbs. Cover with a layer of cooked prunes from which pits have been removed. Dust with sugar, cinnamon and nutmeg. Pour over one-third cup milk; repeat and cover top with buttered crumbs. Bake until crumbs are brown.

Plum Pudding—Six crackers, three pints milk, one-quarter cup butter, one cup sugar, one-half teaspoon salt, one teaspoon mixed spices, six eggs, one pound stoned raisins.

Soak crackers in milk. Cream butter and sugar; add salt, spice and eggs well beaten, and stir mixture into the milk. Add raisins. Bake in a deep pudding dish, well buttered with cold butter, for three or four hours over a low fire. Stir several times during the first hour to keep raisins from settling. Serve with hard sauce or whipped cream.

Indian Pudding—One quart milk, one-half cup cornmeal, one-half cup molasses, one teaspoon salt, one teaspoon ginger or cinnamon, one cup cold milk.

Heat one quart of milk and stir in the meal slowly until it thickens. Take from the stove and add molasses, salt and spice. Put mixture into a buttered earthen pudding dish and add cold milk. Bake

over a low fire for two hours. After the pudding is partly cooked a little more cold milk may be added if desired. Serve with or without cream.

LENTEN RECIPES.

Browned Parsnips—Pare parsnips, cut in halves and cook in boiling salted water until tender. Cut lengthwise in slices one-half inch thick, brown in hot greased pan or in oven with baking meat.

Virginia Corn Cakes—Sift together half pint (one measuring cup) white corn meal, one-half teaspoon soda, one-half teaspoon salt, one teaspoon sugar, two tablespoons flour. Beat one egg, add one-half pint sour milk or buttermilk. Stir in dry ingredients, then thin a little with boiling water. Cook on griddle in small cakes.

Salmon Loaf—One-half to one can salmon, two eggs, one-half cup milk, one cup stale bread crumbs, one teaspoon or more chopped parsley, one teaspoon salt, one-eighth teaspoon pepper, one teaspoon lemon juice. Remove skin and bone of salmon. Mince fish with silver fork and add eggs well beaten. Add crumbs, butter if desired, and seasoning. Mix well. Put in a greased mould, cover and steam or bake one hour. Hard cooked egg, slices of pickle or olives may be embedded in fish mould. Leftovers of baked fish and stuffing may be utilized. Serve hot with white sauce.

DISCOVERIES.

If nuts are soaked in hot water before cracking, nut meat will come out more whole.

Rub salt on the knife blade that has been used to peel onions. Both odor and stain will disappear.

Cream soups can be made from odds and ends of vegetables. Press through a sieve and use as a puree.

THE WOMAN HE MARRIED

A PERIOD OF DEPRESSION Chapter 100

I went into the study and laid Junior's letter and report in front of Dick.

"The boy is doing splendidly," I said. "See what a good report he has for the last quarter."

How glad I was to have something of mutual interest to talk about, something which would steady me.

"That's bully!" he said as he looked over the marks, then picked up the letter.

I watched his face as closely as I dared while he read. Suddenly there came before me that look of relief I had seen that day at the station. Had he been afraid the boy would see and know? The thought brought belief. That was it! Even then, so long ago, he had loved Juanita.

Other thoughts followed in quick succession, other things whose impressions had been so faintly registered that they had left me almost as soon as received. I recalled the look on his face the night of her housewarming—that had been the beginning I felt sure. Had I not been blind I would have noticed it then—that he was commencing to care for her—and I could have perhaps done something before it had gone too far. I compelled my thoughts to a halt. I would not admit it had done that—gone too far. Not yet. I would be sure. Of course he cared for her or he would not have held her in his arms. But it might have been a sudden temptation—she was fascinating in that sapphire dress.

"A nice letter. I am glad he enjoys the school."

"We shall have him for a whole month, Dick! I am so delighted I can scarcely contain myself."

"I am glad he is coming now, because I have got to—be away!" "Away! How—where?" I stammered. Dick never had left me for a

day since we had joined him in the desert.

"I have to go to Chicago."

"What for?"

"Don't ask questions in that tone! To see a publisher. One would think I had no right to go."

"It isn't that, Dick, but when Junior has been away so long. Can't you go some other time—or write?"

"I am the best judge of what I can do and when."

I said no more but left him. Here was a new situation. Was he going because Junior was coming and he feared the boy's sharp eyes? How they, Dick and Juanita, must have must have thought me! How they must have sneered at my trust, my faith in them, when day after day I left them alone in the study for hours at a time.

"You mustn't think of those things if you are going to win him back."

My inner consciousness admonished me.

"I won't." I promised, not realizing it was a promise impossible to keep to the letter, although I might do my best to keep the spirit of it.

"Hello dad! Mother dear!" Junior

boy-like, had taken a train arriving home an hour earlier than we expected him. "Gave you a surprise, didn't I?" he asked gleefully as he

threw his arms around my neck, then shook hands with his father.

"I should say you did!" I returned as I reached out for him again. "I was just getting ready to go to the station."

"I told my buddy I would surprise you. He's coming over some time during vacation. Mother, if you can have him? He's a dandy, and has dandy folks. They live in Los Angeles. His mother has been good to me, and so has his dad. I know you'll like him. He's the right sort, no bluff in Denrick."

I assured Junior I would be delighted to have his buddy visit us, but I noticed that Dick said nothing. Now I was keenly aware of my husband's attitude—perhaps apt to go to the other extreme and make more of things he did, his looks and manner, than I should. But just then even his irresponsiveness could not worry me. I had my boy.

As I looked at Junior, almost as tall as his father, with Dick's eyes and features—Dick as he was when I first knew him—I could scarcely believe he was my boy, my baby. I breathed a prayer of thanks that I had him, his love.

Incongruously came the thought—

Some day he, too, would find another woman to put in my place. Tomorrow—Sunshine and Shadow.
